Sour

5.6%

In collaboration with their wicked friends at 18th Street Brewery from Hammond, Ind., we created this sour ale with huge amount of Toasted Coconut added in the Whirlpool and Pineapple during fermentation. Lactose was also used during brewing to add to the creamy sweetness to complete this summer delight.

West Coast IPA

7.1%

This blast-from-the-past West Coast IPA is a collaboration with our great friends at Wild Beer Co. from Somerset, UK. To make sure this was a true WILD beer, we used freshly picked Eastern White Spruce tips in the whirlpool to enhance the citrus, pine and resin characteristics that we matched using Simcoe and Columbus hops. We dry hopped with these hops and even threw in some Galaxy to make sure this old-school West Coast IPA is truly memorable.
