

FUTURE HARVEST NUTRIENTS

Product Data Sheet

HOLLAND SECRET GROW

DILUTION RATE:

Refer to Feed Schedule

GUARANTEED ANALYSIS:

Total Nitrogen (N) 2%
0.3% Ammonical Nitrogen
1.7% Nitrate Nitrogen
Available Phosphate (P₂O₅) 1%
Soluble Potash (K₂O) 7%
Sulfur (S) 1%

Derived From:

Potassium Phosphate
Monobasic,
Magnesium Sulphate,
Potassium Nitrate,
Ammonium Sulphate.

GROWTH STAGE:

Rooting
Vegetative
Flowering

FOR USE IN:

Soil
Coco
Hydroponics

FREQUENCY:

Refer to Feed Schedule

Holland Secret is a complete 3-Part Fertilizer with all of the essential elements and trace minerals that a plant needs. It can be used with any grow medium (soil, coco or hydro) in any situation (cuttings, vegetative, flowering).

Our product is always sediment and urea free and pH buffered for ease of use. With Holland Secret additives are used only to tweak and maximize performance.

Best of all, Holland Secret really works!

It is perfect for experts or novice growers as there is no need for individual fertilizers, because the three bottles, have a formula for all situations. Growers will experience no deficiencies when using Holland Secret alone. Without additives, many fertilizers on the market are not quite complete and when used in isolation can be found lacking, creating plant deficiencies.

KEY FEATURES

- Automatically buffers pH to acceptable levels for plant growth.
- 100% sediment free (ie. no precipitation of nutrient salts out of solution and becoming unavailable to plants).
- Change the ratio between the three bottles to control nutrition for each specific stage of plant growth, as a professional grower would do.
- Works well for novices and experts alike.
- As well as being very easy to use, the three part formula gives precise control over feeding schedules.
- Extremely low salt index and only the finest raw materials used.
- It can be used as a stand-alone without additives or as a complete feed program.

SIZE	HEIGHT X WIDTH		WEIGHT
500 mL	7.5 in	x 2.5 in	1.3 lbs
1 L	9.0 in	x 3.0 in	2.4 lbs
4 L	12.5 in	x 6.3 in	10.1 lbs
10 L	14.5 in	x 8.5 in	25.1 lbs
20 L	16.0 in	x 10.0 in	50.3 lbs
208 L	35.0 in	x 23.0 in	522.7 lbs
1000 L	46.0 in	x 40.0 in	2513.3 lbs
