**We are open, we are getting your orders out the door within 24 hours and we have lowered pricing / free shipping minimums to better serve you during this challenging pandemic.**

### **A note from Organic Fiji**

One of Organic Fiji's core values is transparency, with this in mind we would like to bring you a Coronavirus (COVID-19) update so you have all the current information.

**Is Organic Fiji open?** Organic Fiji is open and shipping your orders that are placed at [OrganicFiji.com](https://OrganicFiji.com) within 24 hours with fast 2-3 day delivery via USPS Priority Mail System. Amazon is currently backlogged by at least 3 days in processing orders. If you usually buy our product in a store that is now closed, we invite you to [shop online](#).

**Are product and shipping prices still the same?** With gratitude to our loyal customers, we have lowered our prices and reduced our free U.S. shipping minimum to just \$20. We understand there has been drastic changes to people's normal routines, schedules and so much more. We also understand that many of you may be losing income due to the current restrictions, plus heading out to pick up your shopping list might not be an option for you right now.

### **Where is my order being shipped from?**

Every order will be packed and shipped from our Organic Fiji HQ in Camarillo CA with the utmost cleanliness, care and an extra helping of positive vibes for these difficult times.

### **What other support can I expect?**

We are also striving to bring you important information on combating germs, promoting physical and mental wellbeing, price and shipping updates and some much needed positivity wherever possible. To receive this information [please sign up to our newsletter](#).

### **Hopeful hearts**

Here at Organic Fiji, we have found that the best solution for rising anxiety is to concentrate on what we can do as individuals each and every day. These collective small steps, carried out with a hopeful heart, work towards positive global impact. Let's all do our part to make the world a safer and healthier place - for ourselves, our loved ones, our community and indeed for the world.
