We recommend visiting a local jeweler to get sized in person or ordering a ring sizer at studiodelza.com. Questions about ring sizing? Let us know at hello@studiodelza.com

PRINT DOCUMENT \&<br>USE RULER TO CONFIRM CORRECT SIZE $\vdash$

## BEFORE PRINTING

Set page scaling to "actual size" or "none."
The line on the left should measure exactly 1 " or 30 mm if the document is properly printed.

## OPTION ONE:USE AN EXISTING RING

Use an existing ring that fits your intended finger.
Place it on the circles below.
Find a circle that fits against the inside edge of the ring.

Circle should fit against inside diameter of ring If the ring is between sizes, choose the larger size.

OPTION TWO: USE A PAPER SIZER
*Accuracy via paper sizing is not guaranteed.
We recommend visiting a jeweler for most accurate sizing.

Cut out ring sizer \& cut vertical slit on the left side of the sizer. Wrap sizer around base of finger, pulling pointed end through the slit until sizer fits snuggly around the finger.
