

Extra-Duty. Extra Tough. **Intermatic Strong.**

Trust the market leader for In-Use Weatherproof Covers. Intermatic Strong means our weatherproof covers have passed grueling tests to guarantee unbeatable protection.

Know the Code

15 and 20 Amp receptacles in a wet location must have a weatherproof cover that is marked "Extra-Duty."

What makes our extra-duty covers so TOUGH?

- All models comply with NEC 2014, Article 406.9(B)(1) for wet locations and extra-duty applications and CEC Article 26-702
- All models have a lockable hasp
- Impact tested to withstand destructive forces to ensure cover remains intact
- Unbreakable, reinforced hinge exceeds 40 lbf hinge stress test

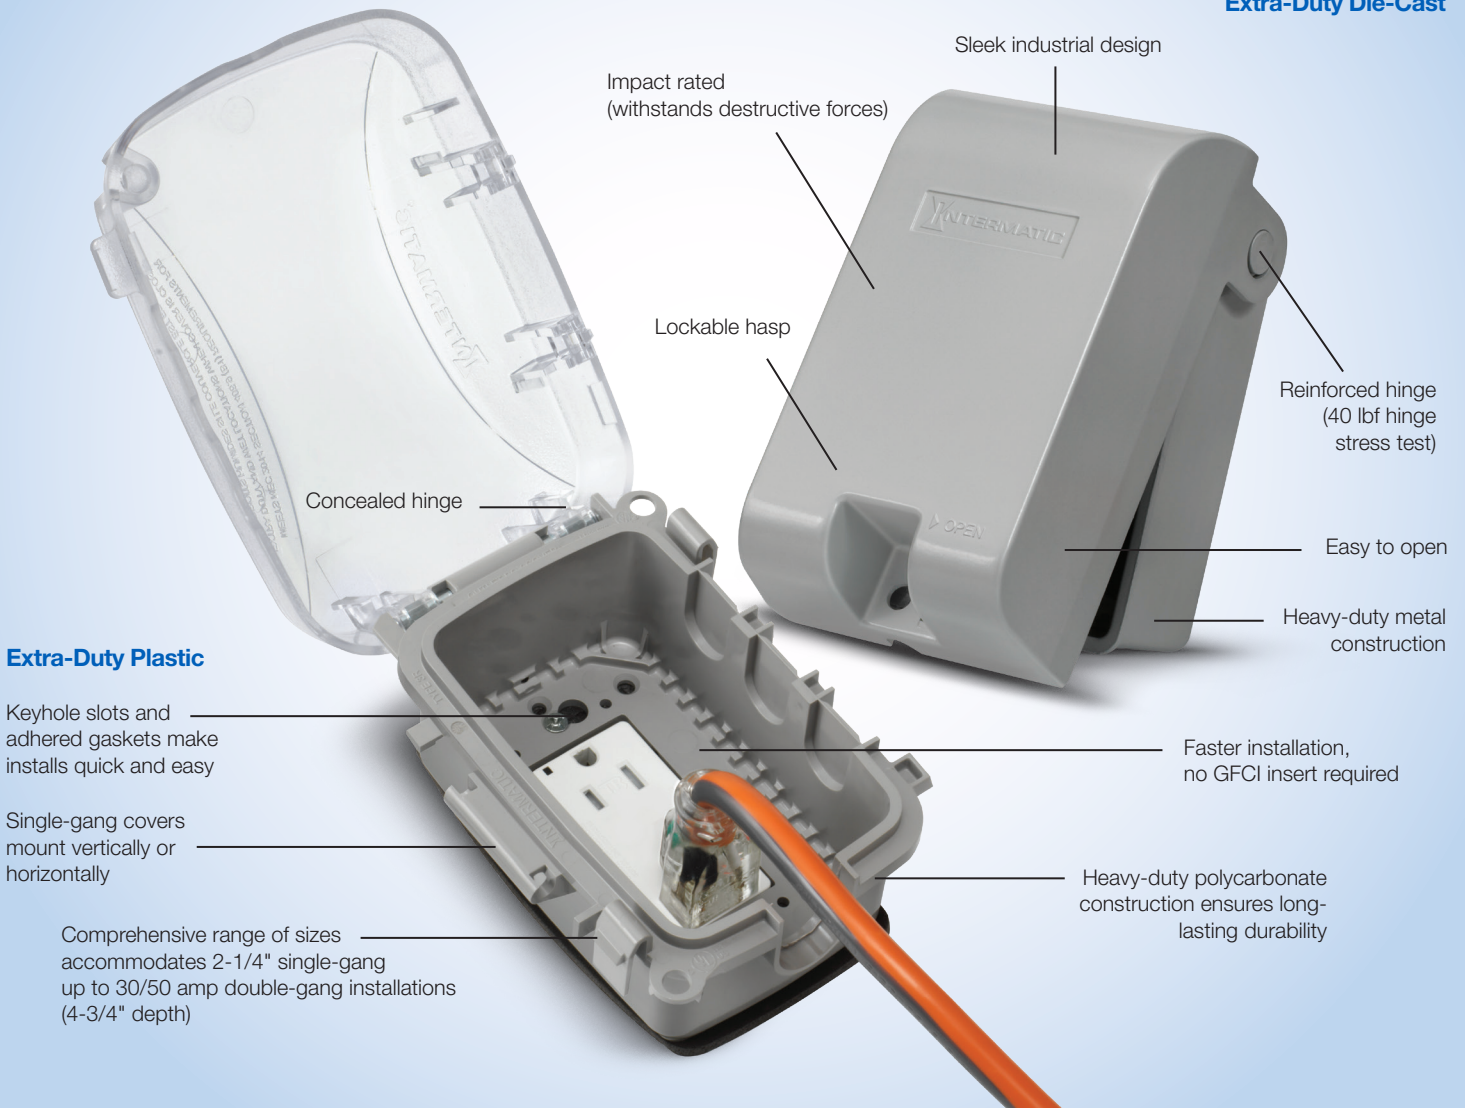

PLUS, features that make installation fast and easy:

- GFCI pre-set on single-gang plastic models
- Keyhole slots, pre-drilled screw holes and pre-adhered gaskets
- Single-gang plastic covers mount vertically or horizontally for stocking convenience

Extra-Duty. Extra Tough. Intermatic Strong.

Extra-Duty Die-Cast

Extra-Duty Plastic

Keyhole slots and adhered gaskets make installs quick and easy

Single-gang covers mount vertically or horizontally
