
TOUGH-FLEX KNEE PAD SLEEVES

Tough and flexible cap for agility and protection on the jobsite

TOUGH-FLEX KNEE PAD SLEEVES

The Tough-Flex Knee Pad Sleeves from Klein Tools feature a slim, low-profile and unique, sleeve design that keep the knee pads close to your body and centered in place throughout the day. These sleeves feature a zipper to be put on and off easily while wearing work boots. The front of the sleeve is designed with a tough, flexible cap for agility and protection on the jobsite. Neoprene and EVA foam padding provides the ultimate comfort for all day kneeling comfort for any jobsite or weekend task that puts pressure on your knees.

Zipper allows for easy on/off application while wearing work boots

TPE cap is tough and flexible for agility and protection

Unique, low-profile sleeve design keeps knee pad close to the body and comfortable for all-day wear

Fastening Buttons secures zipper in place

Elastic cuff with slip-resistant silicone helps knee pads stay in place

Gel-Like Foam Padding System for prolonged kneeling comfort

Zipper for easy on/off application

Tough, flexible TPE cap keeps knees protected while working on and off jobsite

Polyester material that is durable and supportive
