LEVITON®

Decora Smart Wi-Fi Lighting Controls

Easy Wi-Fi Lighting

Create and manage home lighting activities that you can control from anywhere with Leviton Decora Smart Wi-Fi dimmers, switches, fan controls, outlets, smart plugs and more. Simply connect the devices to the free My Leviton app to control and automate lighting and scheduling from within your home or while away. Users can also pair the devices with other popular smart home solutions using the My Leviton app.

New Decora Smart 2nd Gen devices including a 600W Dimmer, 15A Switch, Mini Plug-In Dimmer, and Mini Plug-In Switch provide even more functionality, including integration with Apple HomeKit™ and compatibility with wireless Leviton Anywhere Dimmer and Switch Companions to control the devices from a secondary location within the home.

APP CONTROL
Remote Access from Anywhere. Use the free My Leviton app to add new devices to your home. Create schedules such as "Good Morning" to activate appropriate lighting at preset times. For instance, at 6:30AM every Monday through Friday, turn the bedroom lights to 25% and master bath lights to 50%. Activities can be created for common lighting scenes so that, for example, you can manually set the lighting for "Movie Time" from the app as you begin your movie or create "Romantic Dinner" so lights can be dimmed from the app as you begin your meal.

NEW! WORKS WITH APPLE HOMEKIT AND SIRI®
Decora Smart Wi-Fi 2nd Gen devices can be added to an Apple HomeKit network and controlled with the native Apple Home app on your iOS device, providing compatibility with Siri for voice control.

AMAZON ALEXA™ VOICE CONTROL
Decora Smart Wi-Fi is compatible with products that support Amazon Alexa providing voice control of the load: "Alexa, dim living room lights to 25%".

GOOGLE ASSISTANT™ VOICE CONTROL
"Ok Google, turn [My Leviton device name] On". Works with the Google Assistant. Google Home is a voice enabled speaker powered by the Google Assistant. Easily control smart devices around the home.

Features and Benefits

- No hub required
- Works with Hey Google, Amazon Alexa and Apple Siri®*
  to dim and brighten connected lights
- Integrate with IFTTT to expand control
- Integrate with Schlage Encode™ Smart Wi-Fi Deadbolt
- Scheduling, remote access, and control via the
  My Leviton app for iOS and Android
- Control up to 99 devices, 50 rooms, 50 activities,
  and 50 schedules per residence and up to 20 residences
  per account
- Wired and wireless Companion devices available for
  3-way/multi-location control

*Apple Siri compatible with Decora Smart Wi-Fi 2nd Gen only
