Heads and Shoots: <u>Broccoli, Cabbages, Cauliflower</u>	Green	Yellow	Red	Red	Yellow

Color Key
(think of a traffic signal):

Red: Unlikely to be seeded or grown successfully.

Yellow: Typically can be seeded in mild winter climates.

Green: Ideal time for starting from seed

Light Blue: Works for container gardens or constrained spaces

Easier Crops Coded in Green, More Challenging Crops Coded in Brown; Underlined Crops Must Be Direct Seeded in Order to Produce A Viable Crop
