

Product Sell Sheet

Klip™ Cartridge 0.5g & 1.0g

Ceramic core

Crafted with a ceramic core, Klip™ delivers excellent vape experience through revolutionary heating elements.

Safety first

Klip™ Cartridges boast virtually undetectable levels of heavy metals, including lead, cadmium, arsenic and mercury, testing 10x better than the competition.

Food grade 18/10 stainless steel

Engineered with food grade 18/10 stainless steel to provide the cleanest surface for keeping oil pure. This production process ensures a cleaner vape experience.

Dual-lock mouthpiece design

Secured by both snap-on and compression design, our unique mouthpiece securely locks into place and stays put. Additional benefits include an easy capping process and operational efficiencies thanks to the integrated feedback system.

No condensation, no leaks

Designed to deliver incredible flavor experience with an expertly engineered structure to eliminate condensation and prevent leaks.
