My blood pressure was through the roof and I hated being on prescription medications. I just couldn't handle the side effects of chemical medications so I decided to give Alistrol a try and after 4 weeks of taking 3 capsules daily, I went to my Doctor and my blood pressure reduced a little bit so I continued to take it and after 6 weeks it's now in normal range.

Alistrol is a superb product. I am asthmatic, and so couldn't use Beta Blockers for my high blood pressure, and the other tablets the doctor gave me caused unwanted side effects. However, the Alistrol has brought my blood pressure down by 20 points to a level which my Doctor is happy with, and these cause no side effects whatsoever. It really has been a blessing for me. Many thanks for a truly wonderful product.
