Mental health has become a major worldwide issue as depression and anxiety continue to reach all-time highs. Some of the major causes include:

- Constantly being busy
- Too much screen time
- Video games
- Lack of community
- Ultra-competitive society

In varying degrees, all the above lead to the same end result: **isolation and loneliness.**

Humans are social creatures who were meant to be happy, loving beings who form supportive communities, but in today's world, something is missing.

The Missing Link

The missing link can be found in the ancient medical practices of Indian Ayurveda and the centuries of wisdom gained from natural-medicine healers in China, Japan, Vietnam, Europe and Polynesia.

The inspiration behind our developing of All-Natural Mood Effex is this realization: humankind, especially in the Western world, has lost touch with the natural healing powers of Mother Earth's most powerful mood-enhancing treasures -- **the missing links** -- which include vitality-packed plant extracts, calming roots and depression-alleviating herbs.

These were used daily by ancient peoples, but nowadays, many are left to cope without natural mood remedies, leaving them with too much unnecessary worry, stress, depression and anxiety. Further, prescription medications come with possible severe side effects and don't work for everyone.

All-Natural Mood Effex was specifically formulated to replace and build stronger the missing link by including the most potent herbs, roots and plant extracts that most effectively boost mood, whether one is depressed or anxious or simply just looking for an extra "punch."
