

HELMET SIZING GUIDE

USING A TAPE MEASURE AND CALIPERS:

- 1. CIRCUMFERENCE:** Using a measuring tape, measure maximum head circumference approximately 12 mm above the eyebrows and ears.
- 2. LENGTH:** Using calipers or two pencils, measure maximum head length. If using two pencils instead of calipers, hold one between eyebrows and one at the back of the head and measure head length.
- 3. WIDTH:** Using calipers, measure maximum head width above the ears. If using two pencils instead of calipers, hold them at either side of head above the ears and measure head width.
4. Compare head circumference, length and width measurements to the table below to determine helmet size. If sizing guide suggests more than one size, choose the larger size.

VIPER A1/A3 SIZING - 3/4" 7-PAD LINER

	CIRCUMFERENCE	LENGTH	WIDTH
SMALL	Up to 540mm / 21¼ inches	Up to 182mm / 7¼ inches	Up to 145mm / 5¾ inches
