GVM-G175 is a new-released Monopod with Fluid Video Head specially designed for videographers and filmmakers Leg Sections: 5

The 5-section design can meet users' different demands for height from 645mm / 25.4" to 1870mm / 73.6" under various shooting environments. Payload 10 kg / 22lbs and fast release plate provide compatibility and convenience for fast mounting and dismounting most cameras and camcorders on the market. The press-type button on the monopod makes converting vertical and tilted convenient. The damping force can be adjusted by rotating the damping and ball locking knob for a better shooting experience. The included quick-release plate with 1/4" and 3/8" screws makes camera changes and transport easy.
