

A Great Day starts with a Good Night.

quest 1.0
ADJUSTABLE BASE

In addition to being our most affordable model, our Quest 1.0 is a great way to experience just how much an Ergomotion adjustable base can enhance your lifestyle. Its slim profile lets you use it on an existing bed platform, or you can opt for our **12-inch adjustable/stackable legs**. It offers the same build quality as our entire Quest line, **silent drive motors**, and features a **wired remote** for easy, in-bed adjustments.

KEY FEATURES

WIRED REMOTE

Wired Remote

Ergomotion remotes are modern and stylish devices available in both wired and wireless configurations.

HEAD ARTICULATION

Head Articulation

Elevate the head of the Ergomotion bed to reduce snoring and relieve back pain.

FOLDABLE

Foldable

The Ergomotion bed provides a foldable base for easy storage, setup, and transportation, an additional convenience feature you won't find in other adjustable beds on the market.

COURIER FRIENDLY

UPS Shippable

Meets standards for United Parcel Service US shipping. No delivery service scheduling required.

1" ULTRA-SLIM PROFILE

1" Ultra-Slim Profile

Maintains the beauty of the bedroom set by fitting almost invisibly between the mattress and the base.

3-IN-1 LEGS

12" Stackable Legs

Provides multiple height options so the base can be set to a variety of heights, accommodating aesthetics or different levels of underbed storage.

ERGOMOTION FEATURES

ZERO STANDBY

Zero Standby Power System

The Ergomotion bed features energy-efficient technology to help you cut your bills and your environmental footprint. When not in use, the Ergomotion bed consumes less than 1 watt of energy.

POWER OUTAGE PROTECTION

Power Outage Protection

If electrical power is lost, the base can be brought to a flat position by pressing the button on the power-down box under the base.

SILENT DRIVE MOTORS

Silent Drive Motors

The reliable Ergomotion motors are designed for extremely quiet operation, so you won't be disturbed while lounging, reading, or sleeping.

GRAVITY RELEASE

Gravity Release

Slow, controlled return to flat powered only by gravity. The head and foot motors are designed to lower the mattress by reacting only with gravity, never pulling downward, which minimizes pinch points.

ACCESSORY OPTIONS

LEG OPTIONS

Interchangeable Leg Options

A variation of styles are available, including 3-in-1 legs. The 3" + 6" leg heights can work separately or together for a height of up to 9 inches.

HEADBOARD BRACKETS

Headboard Brackets

Connect your Ergomotion bed frame to your favorite headboard with our brackets for a cohesive and polished look to complement the rest of your bedroom's decor.
