

DOWNLOAD THE APP NOW.

You will need to download the FREE Tempur-Pedic® Sleeptracker® app to finalize installation, personalize your settings, and receive your daily sleep reports.

HOW TO SCAN THE QR CODE

1. Open the QR code reader or camera on your phone.
2. Hold your device over the QR code so that it's clearly visible within your smartphone's screen.
3. You will either be taken directly to the download page or asked to open the page.
4. Choose either to download from the App Store or Google Play Store.
5. Follow the steps below to complete your installation.

Scan the QR code above to download the app.

COMPLETE YOUR INSTALLATION BY DOWNLOADING THE APP

Once you have downloaded the app, you will want to take the next steps to set up your base.

- 1 Register your app by setting up your account prior to delivery and installation.
- 2 Be available when the delivery and installation takes place. You will need to be present to sync the app to your base.
- 3 Keep your packaging—use the QR code included in your TEMPUR-Ergo® Smart Base packaging to successfully complete your app setup. Be prepared to connect your Smart Base to your home Wi-Fi network.

WHAT YOU CAN DO WITH **YOUR APP**

The TEMPUR-Ergo® Smart Base is a complete sleep system, and the app is an integral part. By downloading the app, you will be able to:

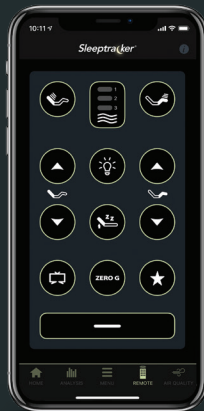

ENABLE SNORE RESPONSE

You must enable this feature if you want your TEMPUR-Ergo® Smart Base to detect and respond automatically* by adjusting the head of your bed.

CONTROL YOUR BASE FROM YOUR PHONE AND REMOTE

Lost remote? No problem. Adjust the base position, operate the zoned massage feature, and more—right from your phone.

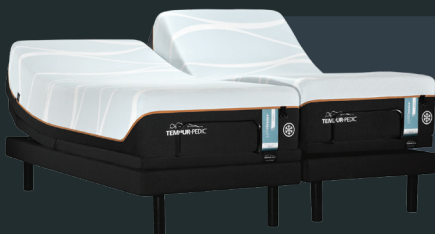

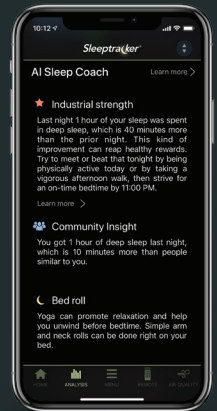

ACCESS YOUR PERSONAL SLEEP SCORE

Your sleep score is featured on the home screen of the app. This sleep score is determined by combining your personal sleep data, which you can review in the “Analysis” tab.

GET YOUR SLEEP COACHING/REPORT

Receive customized coaching and tips to help you raise your sleep score and get more rejuvenating sleep.

NOTE:

Did you buy a split system? If so, you will need to download the Tempur-Pedic® Sleeptracker® app and program the bases to work separately/independently through the app setup.

*Bed raises once approximately 12 degrees in response to snoring. This may reduce snoring in otherwise healthy individuals who snore due to body positioning. Copyright 2020 Tempur-Pedic North America, Inc. All rights reserved.
