

Wireless Charging Pad

SPECIFICATION:

Size: 9.8 cm x 9.8 cm x 1.3 cm

Input Rating: 5V, 2A

Output Rating: 5V, 1.5A

Maximum Wireless Charging Current: 800mA

Wireless charging efficiency: around 75%

Net Weight: 110g

TO USE THE CHARGING PAD:

1. The charging pad should be placed near your bed on a flat surface.
2. Use the power adapter included in the box as power supply. Plug the power adapter into a wall outlet and plug the adapter USB cable into the Micro USB port of the pad.
3. The charging pad can be used to charge your Qi compatible devices such as cell phones. For proper alignment our charging point is located in the direct center of the pad.
4. The blue indicator light will flicker slowly when it's charging compatible devices.
5. The charging pad includes (2) built-in USB ports that can be used to charge devices such as the remote control, using the USB cable provided. We only recommend charging devices that require a 1A USB power output.

Important Safety Notes:

- The charging pad is for indoor use only.
- Do not use this charging pad in extremely hot, humid or corrosive environments to avoid circuit damage or other risks.
- Keep magnetic strips or chip cards (ID card, credit card, etc.) away from the charging pad to avoid magnetic failure.
- Do not place any metal parts on the charging pad.
- The charging pad is not a toy.
- Do not make any changes or modifications to the charging pad. Failure to comply will void the manufacturer's warranty.
- Do not use the charging pad if it has been damaged in any way.
- Please do not disassemble the charging pad.

Use the wireless charging pad to charge your personal compatible devices.

Charge your remote with the USB cable provided.
