- One-touch Pre-set Flat Position
- Headboard with dimmable LED Light
- Silent Drive Motors
- Zero Clearance
- USB 3.0 & USB-C Ports
- Variable Speed Vibration Motors
- Flex Panel Design
- Zero Standby Power System

ErgoSportive App

The feature rich ErgoSportive™ app allows you to view all your sleep reports, data, and real-time health metrics. Share your sleep report with a coach, physician or loved one. Control your bed with the wireless remote and set alarms to wake to a gentle massage or Zero-G®. Connect your Garmin® account for a 24/7 view of recovery and performance.

Non-Contact Health Sensors

Built in health sensors detect micro-vibrations to measure heart rate, respiratory rate and movement. ErgoSportive™ provides a personalized sleep report with suggestions to improve sleep and recovery.

Advanced Adjustable Base

Create a personal recovery zone with One-touch Zero-G® to promote circulation, improve breathing and reduce back pressure while vibration motors massage stress away. Anti-Snore setting gently raises the head to alleviate snoring and improve sleep quality. The dimmable LED headboard and USB ports add style and convenience.
