11. If you register any work that includes any content and its derivatives from this pack specifically without proper Credit, we may take legal action due to breach, and/or violations of any of the above mentioned.

How to give proper credit.

This pack was created by 1 of our composers/owner. In the contents of the package we give you a pdf that you must read instructing you how to give proper credit at 0.00% Royalty Share. The Images below are shown as an example via registration on the ASCAP site.

The screenshot shows a registration form with three main input fields. The first field is labeled "Search by Writer IPI or Name*" and contains a blurred name. The second field is labeled "Role*" and has "Composer" selected, which is circled in green. The third field is labeled "Share %*" and has "0.00" entered, which is circled in red. There are "Clear" and "Back" icons at the bottom right of the form.

Sample use credit.

* This section does not apply if you're using any stems, mini loops, or one shots within our packs.. This section only applies if you use the full stereo compositions (which will be titled by name).

The same process applies to the section where you're being asked if your work includes a sample using copyrighted music. You are required to fill out this part as well if this section is provided by your PRO (Performing Rights Organization). All of the stereo files in the pack have Title Names so use those Title Names when filling out this section. Full instructions are explained in the included pdf of this pack!

^ Does this work include a sample? If not, skip. ?

The screenshot shows a form section with a sub-header: "By completing this section, you are confirming you have permission to use copyright music and lyrics." Below this are two input fields: "Title of Work Used*" with a blurred title, and "Writer Name*, IPI" with a blurred name and IPI. There is a "+ Add Writer" button and a "Clear" icon at the bottom right.
