

# Product License Agreement

This Agreement is established between you (the buyer) and the establishment of Reel Loops, LLC. ([www.reelloops.com](http://www.reelloops.com)) For use of the Presets we created in this pack.

This agreement establishes the binding agreement terms below upon purchase of this pack:

1. The Contents within this pack are Free to use For Personal/Commercial Work. Use however you'd like within the guidelines placed by Cherry Audio's Terms and Agreements.
2. This product is intended for use by the one who purchased this product.
3. This product must be purchased and not shared.
4. This product is NOT to be purchased and resold AS IS, or REPACKAGED to be resold to anyone or business entity and if so is a violation of this agreement.
5. Reel Loops may take legal action due to breach, and/or violations of the above mentioned (#2,#3,#4).

## Installing the Preset Sounds

Cherry Audio has a directory location for their sounds and we've noticed if you don't place your sounds in that directory, accessing them otherwise is pretty much useless. You cannot have multiple directories saved for preset access (as far as we understand at the time of this pack's creation). However, we think it's beneficial to keep all sounds within one directory. With that said, the best practice would be to move these Cherry Audio Preset sounds into their respective directories (for each vst synth).

The directory For **Windows** users are:

***Users/username/AppData/Roaming/CherryAudio/Synth Name/Presets***

The Directory For **Mac** Users are:

***User/Library/App Support/Cherry Audio/Synth Name/Presets***

Move Each "**Reel Loops Sweet Fusion Vol.1 Presets**" into the Presets Folder for Each Synth Respectively. Upon doing that, whenever you open the Cherry Audio VST Synth of your choice, The drop down Menu will show the folder "Reel Loops Sweet Fusion Vol.1 Presets". From there, it's your playground to play in. Have fun and enjoy the presets!!!
