The Beauty Battalion

Oxygen Plus

March 2016

O+ oxygen elevates your energy, increased your alertness and restores your get up and go. The active ingredient is 95% pure enriched oxygen, delivered at nearly four times the concentration of oxygen found in everyday, unpolluted air.

Just a few deep breaths – through your mouth or your nose – helps revitalize, boost energy, and alleviate the effects of vigorous exercise, travel, altitude, poor air quality, and a night on the town.
