

CERAMIC TIRE SHINE

SiO₂ INFUSED DRESSING

WIZARDSPRODUCTS.COM • COMPLETE PRODUCT INFORMATION

FEATURES:

- ♦ Deep - Dark - Rich Gloss
- ♦ No Sling Spray Coating
- ♦ Extremely Durable
- ♦ SiO₂ Infused Poly-Acrylics form a barrier to coat tires & trim
- ♦ Repels Water, Chemicals and other Pollutants to keep tires deep black for weeks

HOW TO USE:

For best results wash tires first with WIZARDS® POWER CLEAN™ #11088 All Wheel and Tire Cleaner or other high performance tire prep. Shake bottle lightly; for the most gloss and protection, spray generously and evenly to flood each tire sidewall, then allow to soak and bond for several minutes, then lightly wipe any excess from sidewall with a foam applicator. Any overspray will wipe away easily with a microfiber cloth. For a medium shine or less gloss do not flood tire; prime/spray a foam applicator and spread out a wet and even application which will dry quicker. Suitable for interior plastics, vinyl and leather: Spray onto a foam applicator and apply evenly.

NOTE: Do not spray onto controls or foot pedals; do not spray on floors or allow mist to overspray onto floors, as it will become slippery. This product should not be sprayed in direct proximity to painting operations (or air intakes).
