## INTRODUCTION

Proaim launches the newest generation of Slider- **Inertia 2.5ft Motion Slider**, for adding smooth, linear camera motion to your video productions. This **Carbon Fiber High Precision Camera Slider** features a belt-drive system driven by an included flywheel and thus named Inertia. It is fully made using **high-grade CNC aluminum**, comes fully assembled & is both **extremely sturdy** and **ultra-portable**. It is a **manual slider and doesn't need a motor**, because of the belt-driven or **inertia-driven mechanism**. You can use it without belt and Flywheel just like any other slider. Made for both professionals and amateurs who love to shoot but want that added convenience and mobility, this is made just for you.

## IN THE BOX

Please inspect the contents of your shipped package to ensure you have received all that is pictured and listed below.

## ASSEMBLING YOUR Inertia 2.5ft Motion Video Slider

Loosen the knobs, align the feet & then tighten at desired angle at both ends as shown below.

## *Proaim Inertia 2.5ft Motion Video Slider #*

Tighten the knob of camera plate to secure at desired angle.

Now attach the handle onto the weighted flywheel for smooth ramped movement.

**NOTE :** *Tripod plate is equipped with numerous 1/4"-20, 3/8"-16 threads and 5/8" free hole that allows you to mount the slider onto a tripod*

Mount your slider onto the tripod stand then mount your fluid head and your camera properly.

**YOUR Proaim Inertia 2.5ft Motion Video Slider  
ALL DRESSED UP AND READY TO GO**
