

The Lilitab Multidock ensures your tablet and accessories are always charged and ready for use with no cables to connect.

Keep your tablet and accessory charging compact and organized. Works with our H and P Head Units configured for edge-charging.

We've thought of everything

No Cables. The Lilitab Multidock works with our H and P style Head Units to enable easy dock charging without any cables to connect.

Grab and Go. Grab any tablet when you need one, drop it back in the charger when you're done. No cables to connect or disconnect.

Cut down cable clutter and charger overload. The Lilitab Multidock charges up to four tablets and four connected accessories without the need to remove the accessory or add additional cables.

Versatile. It can be used with our H and P Head Units configured for Android or Apple tablets and one additional USB charged accessory per tablet (such as credit card reader, RFID reader, etc.).

Tamperproof. All cables are protected and inaccessible to the public.
