

SMART LINE

Intelligent / measurable-use

Your business lives or dies by providing excellent customer service. You need the speed and convenience of self-serve and the depth and breadth of staff-assisted service.

Lilitab's Smartdock enables your tablet deployment to effortlessly switch between unattended and in-hand use with just the press of an on-screen button.

With it's enterprise grade security and audit trail you can now seamlessly share tablets on an ad-hoc basis without having to do a 1 to 1 deployment. If you need a tablet undock it and go, drop it back on any mount when you're done. We'll make sure it's locked down between users and charged and ready for use the next time it's needed. While it's docked it can provide self-service options to your customers and staff.

Smart Line features include:

- Securely share tablets between employees as needed
- Tablet-controlled intelligent auto-locking dock
- Undock via a QR coded badge or on-screen button
- Secure audit trail of who undocked tablet and for how long
- Remote administration and analytics
- User-operated tilt
- Multiple accessory and brand options

PRO LINE

Versatile / flexible-use

Your business demands reliable, user-friendly self-service and future-proof deployments; lilitab delivers. Our Pro line's patented MagDOCK enables 24/7 uptime and remote depot maintenance, just turn the key to swap out your entire head unit and replace it with a new one. As your business and tablet needs change over time there's no need to replace your entire kiosk system, just swap out your head unit.

Need to swivel or tilt the kiosk head for a different angle? Or undock the tablet for an on-the-spot presentation? With the use of the MagDOCK locking dock, simply turn the key to release the head unit and take your client on an assisted sales tour. Lilitab's Pro Line is ideal for high-use, high-traffic business settings such as assisted-selling environments, retail, restaurants, healthcare and more.

Pro Line features include:

- Key-operated docking
- Quick setup and teardown
- Zero downtime
- Dock in landscape or portrait orientation
- User-operated tilt
- Highly secure locking system
- Multiple accessory and brand options

BASIC LINE

Stationary / fixed-use

You need a secure, cost-effective kiosk system that mounts anywhere and looks good.

Lilitab's Basic Line is best suited for users who will install their kiosk once and not need to remove the tablet frequently. When necessary, accessing the tablet requires the use of the lilitab head tool.

Basic Line features include:

- One-time setup and easy installation
- Fixed neck and head (no tilt)
- Secured via four security screws
- Multiple accessory and brand options
