

XPOWER-S is a reliable and stable spider based power meter that is easy to use and install. Based on the excellent structural mechanics and electronic circuit design you can get $\pm 1.5\%$ accurate measurement of watts in every second.

- **Battery** : Rechargeable Li-ion battery
- **Data Protocol** : ANT+ / Bluetooth 4.0
- **Accuracy** : -/+ 1.5%
- **Weight** : 570 gram ~ 760 gram
- **Battery life** : 150 hours
- **Waterproof** : IP67
- **Measure Data** : Power, Cadence, Balance
- **Power range** : 0 – 2500 Watts
- **Cadence range** : 30 – 220 rpm
- **Working temperature** : -10 – 50 °C
- **Firmware upgrade** : Lifetime Firmware Upgrade
- **Limited Warranty** : 18 Months

24MM SPINDLE

The XPOWER crankset uses the 24mm-spindle, which is also the most popular spindle in the market. The SHIMANO users can install it directly without replacing the bottom bracket. It is compatible with all kinds of framesets in the market, so you need not to spend efforts to select the bottom bracket.

4-HOLE HOLLOWTECH

All parts of the XPOWER crankset are made of high-strength aluminum 7075, which are processed by CNC. Moreover, using Hollow Technology, four holes are dug out inside the crank, which dramatically reduces its weight while enhancing its strength and achieving perfect balance.

MODULAR DESIGN

Taking advantage of modular design technology, the XPOWER-CNC features easier maintaining. So every part can be freely replaced, easily installed and conveniently maintained.

XPOWER CRANKSET 110BCD-4S ROAD

- CNC machined from AL7075
- Titanium spindle SIZE
- BCD: 110 mm
- LENGTH: 160, 165, 170, 172.5, 175 mm
- CHAINLINE: 43.5 mm
- Q-FACTOR: 148 mm FINISH
- Black sticker

XPOWER CRANKSET 110BCD-5S ROAD

- CNC machined from AL7075
- Titanium spindle SIZE
- BCD: 110 mm
- LENGTH: 160, 165, 170, 172.5, 175 mm
- CHAINLINE: 43.5 mm
- Q-FACTOR: 148 mm FINISH
- Black sticker

XPOWER CRANKSET 144BCD TRACK

- CNC machined from AL7075
- Titanium spindle SIZE
- BCD: 144 mm · LENGTH: 160, 165, 170, 172.5, 175 mm
- CHAINLINE: 41.5 mm
- Q-FACTOR: 136 mm FINISH
- Black sticker

XPOWER CRANKSET 104BCD MTB

- CNC machined from AL7075
- Titanium spindle SIZE · BCD: 110 mm
- LENGTH: 170, 175 mm
- CHAINLINE: 52 mm
- Q-FACTOR: 168 mm FINISH
- Black sticker

ZEE SELF POWER SMART ROLLER

- Weight : 9.5kg
- Data Protocol : ANT+ / Bluetooth 4.0
- Max Power : 1000 Watts
- Max Incline : 15°
- Measure Data : Power, Speed

SRAM 3-BOLT 104BCD

- CNC machined from AL7075 SIZE
- BCD: 104 · OFFSET: 3 mm BOOST FINISH
- Black sticker · CNC detailed WEIGHT
- 100 grams

CANNONDALE 104BCD

- CNC machined from AL7075 SIZE
- BCD: 104
- OFFSET: 0 mm FINISH
- Black sticker
- CNC detailed WEIGHT
- 100 grams

CANNONDALE 110BCD

- CNC machined from AL7075 SIZE
- BCD: 110 FINISH
- Black sticker
- CNC detailed WEIGHT
- 130 grams

SPECIALIZED 110BCD

- CNC machined from AL7075 SIZE
- BCD: 110 FINISH
- Black sticker
- CNC detailed WEIGHT
- 138 grams

ROTOR 3D 110BCD

- CNC machined from AL7075 SIZE
- BCD: 110 FINISH
- Black sticker
- CNC detailed WEIGHT
- 110 grams

SHIMANO MTB 104BCD

- CNC machined from AL7075 SIZE
- BCD: 104
- OFFSET: 3 mm BOOST FINISH
- Black sticker
- CNC detailed WEIGHT
- 100 grams

SHIMANO MTB 100BCD

- CNC machined from AL7075 SIZE
- BCD: 100
- OFFSET: 3 mm FINISH
- Black sticker
- CNC detailed WEIGHT
- 100 grams

SRAM 3-BOLT 96BCD

- CNC machined from AL7075 SIZE
- BCD: 96
- OFFSET: 3 mm BOOST FINISH
- Black sticker
- CNC detailed WEIGHT
- 100 grams

SRAM 3-BOLT 110BCD-4S

- CNC machined from AL7075 SIZE
- BCD: 110-4S FINISH
- Black sticker
- CNC detailed WEIGHT
- 110 grams

SRAM 8-BOLT 107BCD

- CNC machined from AL7075 SIZE
- BCD: 107 FINISH
- Black sticker
- CNC detailed WEIGHT
- 115 grams

SRAM 8-BOLT 110BCD-4S

- CNC machined from AL7075 SIZE
- BCD: 110-4S FINISH
- Black sticker
- CNC detailed WEIGHT
- 118 grams

SRAM 3-BOLT 110BCD

- CNC machined from AL7075 SIZE
- BCD: 110 FINISH
- Black sticker
- CNC detailed WEIGHT
- 110 grams

SRAM 8-BOLT 110BCD

- CNC machined from AL7075 SIZE
- BCD: 110 FINISH
- Black sticker
- CNC detailed WEIGHT
- 110 grams
