CAIRNS TO CAPE YORK

TRAIL BIKE ADVENTURES.

PHONE 0412 950192

To the team at Pivot Pegz,

This letter is to congratulate you on your product Pivot Pegz. I have been using them on my own bike now for the last 4 years and in that time the pegs have clocked up some 60,000klms. Our tours range from 1 day rides to 8 day rides and covers Cairns to Cape York so the product has been through the toughest test and passed with flying colours.

The advantages I have noticed are the pivoting action gives you a wider peg and relieves the stress on your feet so fatigue is reduced, the wear factor on the soles of the boots are reduced to the point that I now don't need to replace the soles, and the pegs give more stability combined with the fact that they pivot when going up and down hills. I have found the spring loaded pivot action is a major advantage on corrugated sections of dirt road and track.

I have no hesitation in recommending your product.

Kind Regards,

David Williams

Director.
