

Kestrel[®] Interface

Communicator Software Instructions

Thank you for purchasing the Kestrel Interface and Communicator Software. This system will upload the stored data from your Kestrel Meter to a computer for long-term storage, in-depth analysis or detailed charting. This system works with any Kestrel 4000 series model.

BEFORE STARTING

What's in the Box:

- Interface Cradle—Kestrel Meter snaps into the cradle for optical communication
- A Serial or USB Cable—plugs into the interface and your computer

What You'll Need:

- A PC with an available Serial or USB port
- Windows XP, Windows 7 or Windows 8
- A Kestrel 4000 series Meter

INSTALLING THE SOFTWARE

- Visit www.nkhome.com/support/pdfs.html.
- Scroll down to Kestrel section, then Software.
- If USB, download USB driver first and install.
- Download Kestrel Communicator Software and save the file to your desktop.
- Double-click the Kestrel icon and run the software to install.
