NUMAX

Overview

The Numax flooded leisure and marine range is number one in the UK, and perfectly fits the bill if you want a well built, quality battery to suit to your leisure or marine application. Numax stands for quality, reliability and durability, and this range certainly ticks all the boxes.

The Numax CXV batteries will last a good deal longer than conventional flooded batteries as a result of state-of-the-art plate design, semi-traction paste, envelope construction and gas recombination technology.

Range

- Calcium technology
- Enhanced performance
- O.E. specification
- Long life – sealed maintenance free
- Full two years guarantee

- Superior 'Dual Purpose' Leisure and Marine battery
- Calcium technology
- 30% more starting power
- Exceeds O.E. specification
- Sealed maintenance free
- Full three years guarantee
