Camino SS24 COLLECTION

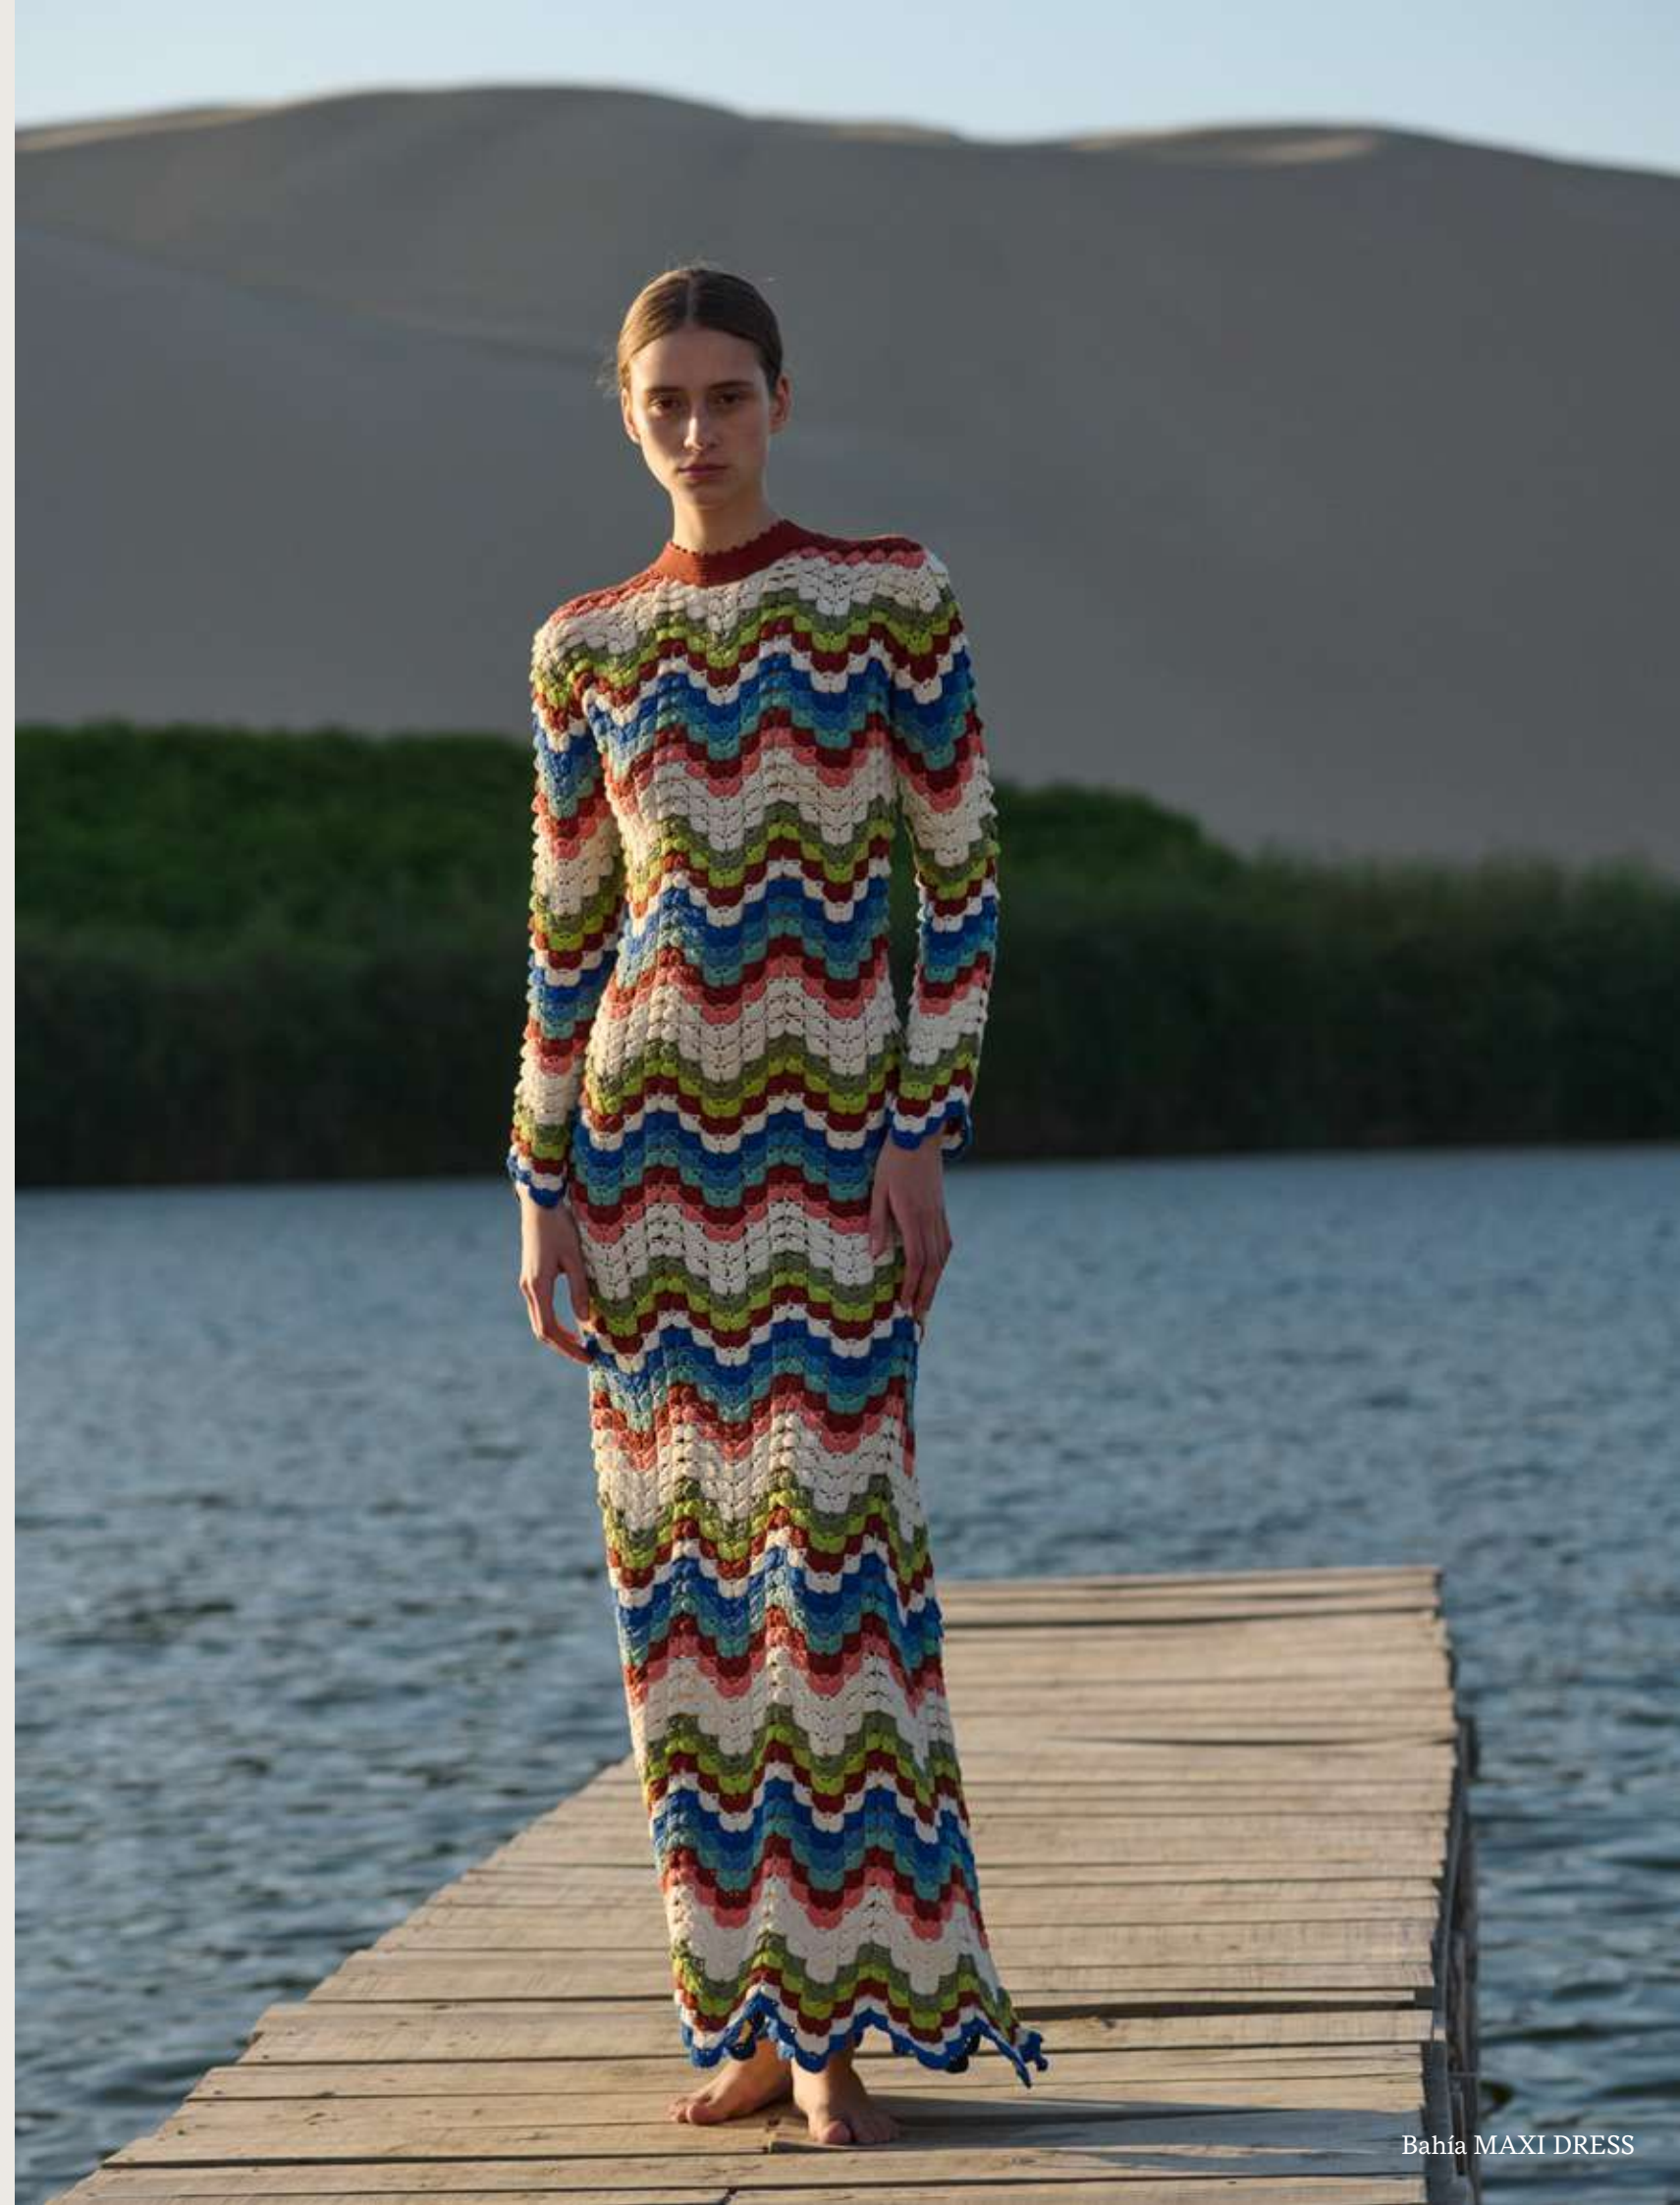

2023 marks ESCVDO's 10th anniversary as a brand that creates contemporary design enriched by Peru's cultural expressions. CAMINO, ESCVDO SS24 Collection, is creation as a way of remembrance, and it locates us, through color, patterns and textile intricacy, inside a specific geography and a broad part of Peruvian history.

CAMINO continues the path of research taken for MILAGRO, ESCVDO's RW24, in celebrating a key part of the country's identity: AfroPeruvian heritage.

Camino SS24 COLLECTION

Bahia MAXI DRESS

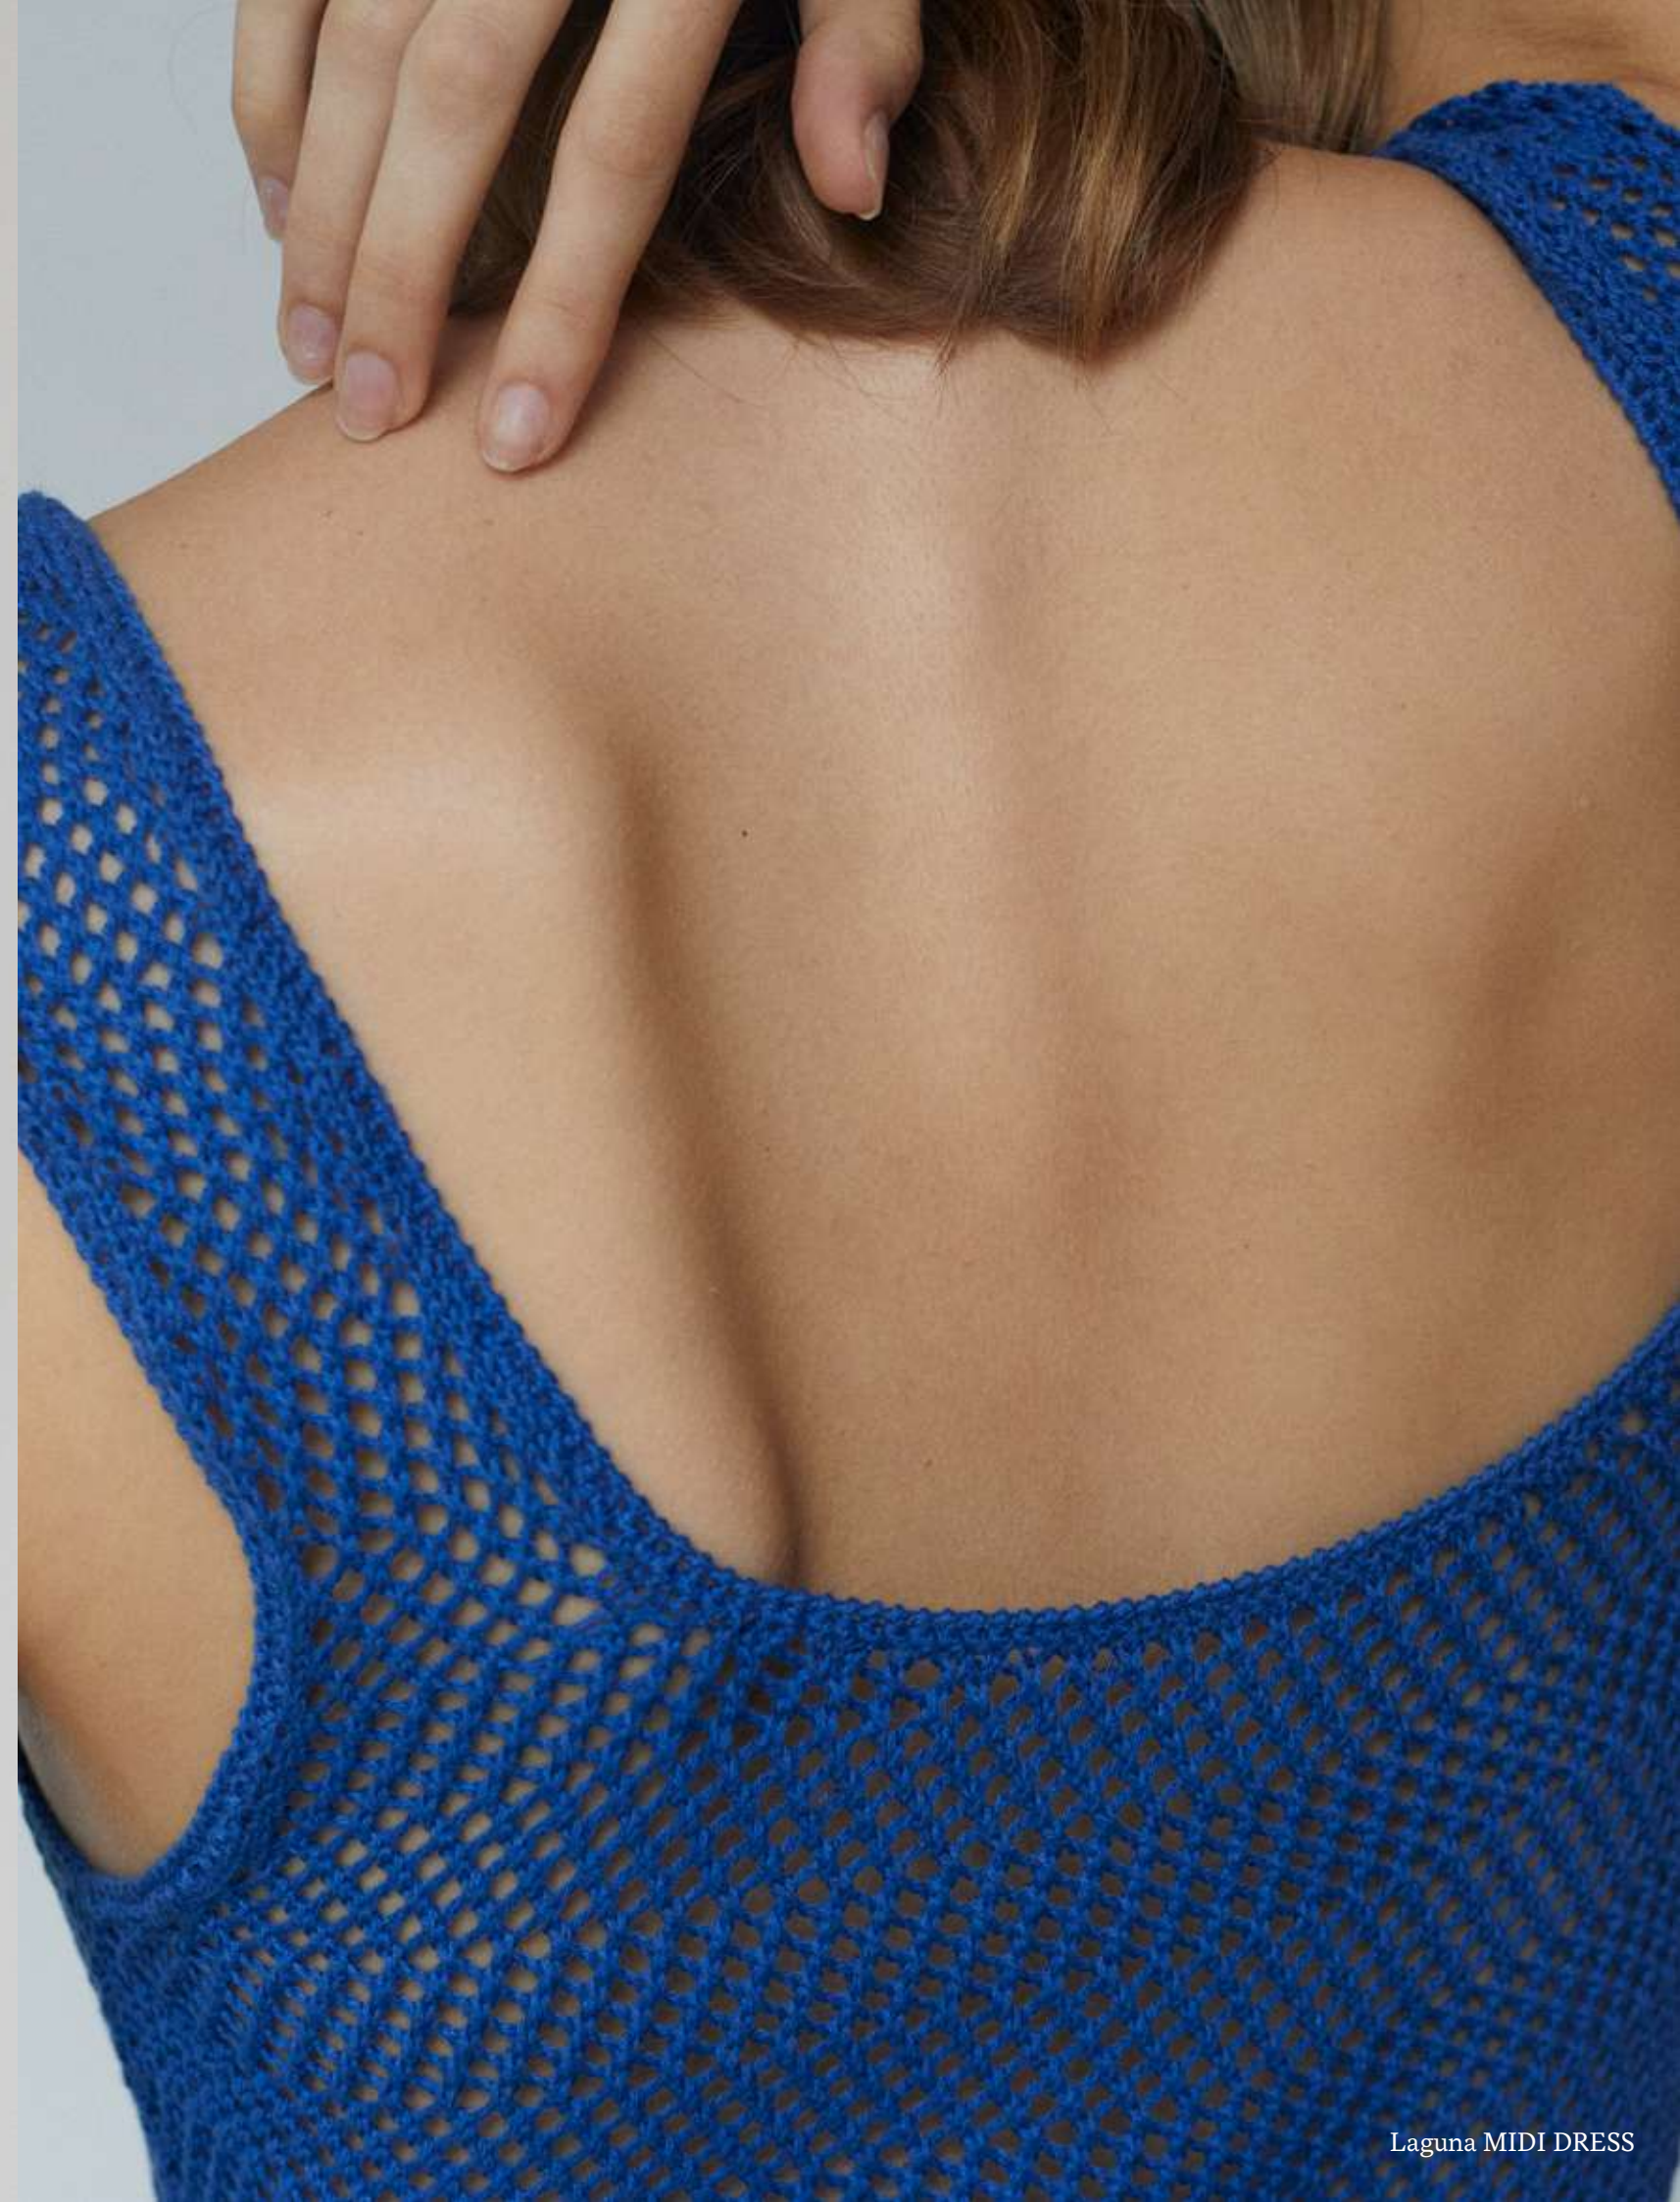

The scenery of the Peruvian Coast, a desert that extends into the ocean while interrupted by valleys sets a color palette of deep blues and greens, earth tones and even some yellows. The traditional attires of the area added some pinks and reddish browns. All tones designed at the ESCVDO studio, inspired by heritage and mixed with some of the favorites among our customers, like our now classic colonial pink and the tangerine that defined ESCVDO's RW24 MILAGRO.

Straight lines showcase the richness of this collection's colors. Peru is a place made unique by the complexity of its history, and CAMINO is a precise homage to that complexity.

In this collection **ESCVDO** continues to work in a sustainable manner, having the wellbeing of people and planet as a core value. Zero waste garments, organic and eco friendly fibers, community engagement and fair trade, all continue to guide the brand in its latest production.
