1

Assemble the Frame

Connect the poles by matching up the numbers. Attach support base to the bottom of the frame.

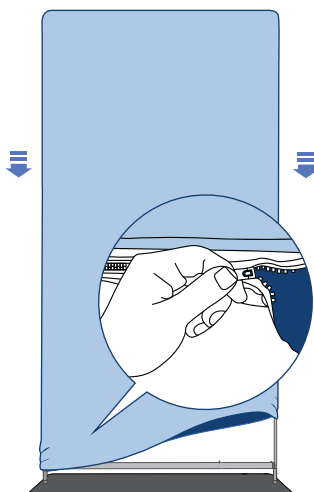

Match numbers 1 to 1, 2 to 2, etc.

2

Install the Graphic

Carefully pull the graphic print over the frame, ensuring both sides are pulled down at the same time.

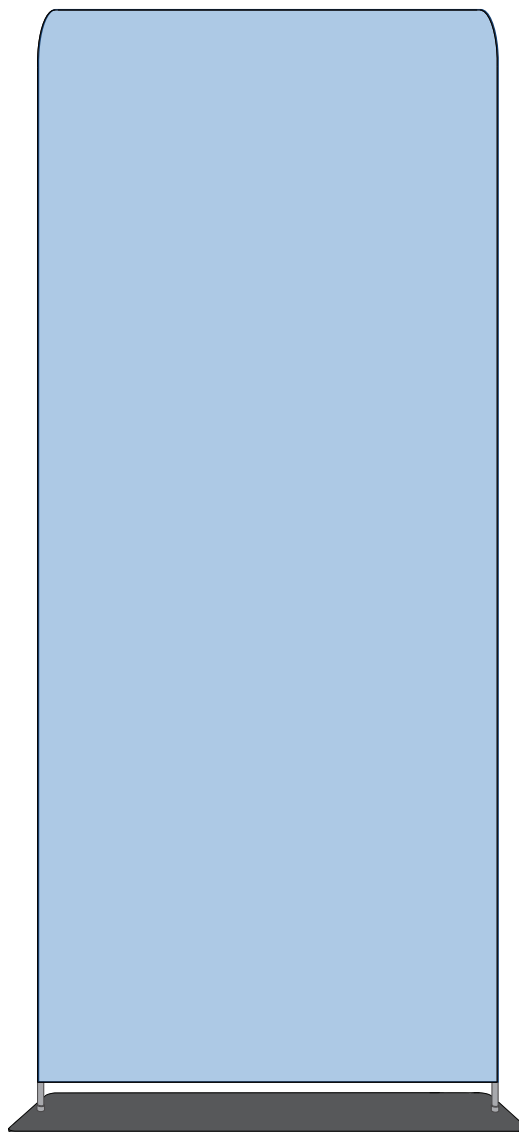

It helps to have a second person to pull the other side simultaneously.

3

Align the Display

Stand up the frame and shift or wiggle the corners until it's aligned and standing straight.

You can adjust the frame alignment by having a person on each side gently shift the top corners until the display stands completely straight.
