

Annual Hiking Trek

They climbed to nearly 14,000 feet altitude, with up to 40 mile-per-hour winds, and covered 60 miles. Those are just a few facts about the annual trek that our President, Clay Parrill, and VP/Programs Manager, Don Duquette, took this year. And it's a trek they've taken for 14 years straight. Check out more facts, photos, and their business recap from [this year's hiking trip](#).

Product highlight

Speaking of mountain highs, have you seen our new line of [high temperature 744B Series](#)? Much like our dynamic hiking duo, Clay and Don, they're rugged, pack light (a miniature package) and are built for high power applications. Plus, our new [DC Link tech bulletin](#) reads like a trail map for selecting these high current capacitors, including six must-ask questions for design engineers.

Look what you're a part of . . .

In the coming weeks, we'll celebrate Veterans Day and the 75th Commemoration of the December 7, 1941 Attack on Pearl Harbor.

Valued partners: That's why it's fitting we salute this month's featured distributor. In 1948, WWII vet Abe Slivka returned home after the war with an interest in radio electronics to create a small company, New Yorker Electronics. Nearly seven decades later, this third-generation global electronics firm maintains its military heritage as an AS9210 and ISO 9001:2008 certified source of capacitors, resistors, semiconductors, connectors, inductors, rectifiers and more. [New Yorker Electronics](#) operates entirely at heightened military and aerospace performance levels as an internationally-recognized franchise distributor for some of today's top manufacturers.

In this together: With a nod to life outside the world of engineering, remember to set your clocks back when

Daylight Savings Time ends at 2:00 AM on Sunday, November 6. Be sure to make your voice heard by voting on November 8. And we're already looking forward to kicking off the New Year in January at [NAMM](#) (National Association of Music Merchants) in Anaheim.
