

Thanks for visiting Electrocube at APEC!

Tom Colella, Engineering Manager, and I had a great time meeting so many of you. Over the next few days, we're excited to consider what we heard and respond individually to the many questions we received.

Check out our company page on [LinkedIn](#) to see what we found most valuable from our time at APEC, and let us know how you benefited from the educational and networking aspects of the show.

Tom and I hope to continue to connect with you on LinkedIn, [Electrocube on LinkedIn](#).

Again, thanks for visiting Electrocube. Your name will be entered in our drawing for an iPad and the winner will be announced soon.

Clay Parrill
President

Founded in 1961, Electrocube is the only company that custom designs and manufactures film capacitors, RC networks and transformers for a wide range of applications in the aerospace, audio, elevator, heavy equipment industries and more.
