

Drum roll, please...

Superior Supplier Performance

For the eighth consecutive year, Boeing has recognized Electrocube with the [Silver Performance Excellence Award](#) issued annually to suppliers for superior quality and delivery performance. Our team is one of a select group of suppliers to consecutively receive the Silver level of recognition. A supplier to Boeing for 28 of our company's 53-year history, we manufacture [autotransformers](#) to the world's largest aerospace company for both commercial and military programs.

Way to go, team! Congrats to Sylvia Gonzalez, Production Supervisor, and her team in the Networks Department where our Boeing product is made.

Impactful Engineering Design

Electrocube is a finalist for the 2nd Annual ECN Impact Awards, a competition that honors the best and most innovative in the design-engineering world. Our [RC Network Substitution Box \(RCSB\)](#) a cost- and time-saving measure designed to streamline the process of minimizing or eliminating RC is one of about a dozen finalists in the Test & Measurement category. Winners will be announced next month at a ceremony in conjunction with EDS 2015, held May 12-15. Want to connect at EDS? [Email us](#) for an appointment.

Look what you're a part of...

Such awards underscore our commitment to provide service excellence and enhancements to applications and products that impact real, practical results for all of our customers.

Valued partners: What great momentum as we head to EDS 2015 for our national sales meeting with our network of [sales reps](#) and [distributors](#) the likes of [Relay Specialties, Inc.](#), distributors of industrial electronic components. Barry Sauer and Executive Vice President Steve Gershberg are a couple of boots-on-the-ground executives. Driven by an in-depth knowledge of electrical components and their continuously evolving delivery systems, as well as an *above and beyond* work ethic, Relay prides itself on impressive technical expertise and

customer service, and off-the-shelf delivery. Theyre our kind of *get it done fast and right* folks.

Going to Del Mar?: Come see us at the [Del Mar Electronics and Design Show](#) in San Diego, CA, May 6-7 at Booth #240.

KAPOW! BANG! ZAMM! at EDS: Well forecast strategies to raise the bar to **superhero levels** for you. Look for some fun photos next month.

Film Capacitors ■ EMI Filters ■ RC Networks ■ Transformers
