

Ordering Information

The Electrocube part number describes the capacitance value in picofarads using the first two digits as significant figures; the third digit is the number of zeros to follow.

Electrocube marks the part with the capacitance value expressed in microfarads.

All modification designators may not be stamped on parts.

AVAILABLE MODIFICATIONS	
A	Moisture-resistant requirement
B	100% I.R. required
C	Special D.F. requirement
D	Tape and reel required
E	Wrap and fill radial leads design
G	Premium stamp: Two-part epoxy ink
H	Customer part number required on part
I	Special I.R. requirement
J	Glass tape/Flame tape/Flame end-fill (Flame retardant)
K	Flame tape/Flame end-fill (Flame retardant)
N	100% burn-in and I.R. required
P	Temperature cycle required
R	Flame end-fill only
V	100 KHz ESR test
W	Clear wrap
X	RoHS, non-compliant, contains lead
Y	10 KHz screen test

For questions and/or a quote, contact Sales at 909-595-4037, info@electrocube.com, or fax 909-595-0816.

Founded in 1961, Electrocube is one of the most respected design manufacturers of passive electrical components – film capacitors, RC Networks, EMI Filters and foil transformers – for a wide range of standard and custom applications in the aerospace, audio, elevator, heavy equipment industries and more. Electrocube's hallmark is its clear understanding of the challenges faced by design engineers and purchasing agents. www.electrocube.com
