

## Experience Electrocube: Whats New? Low-quantity price breaks, no-risk returns

Whether you're a new or existing customer, or one we've not seen in a while, experience Electrocube in a new way. **Why?** The industry is rebounding slower than anticipated so we have a special offer for you.

**How did this come about?** The annual High Sierras hiking trek that Electrocubes top management makes together always brings a renewed perspective and an attuned ear to the

business landscape.

**Heres the offer:** Take advantage of our unmatched quality and service with lower quantity price breaks and our new no-risk return policy on all standard film capacitors and RC Networks. Between now and December 20, order as few as 100 and get the same per piece price as if you ordered 1,000. Order 1,000+ and get the same per piece price as if you ordered 5,000. Its all backed by our satisfaction and shipping guarantees. [Get the details](#) to order and save now.

---

### Attuned to quality sound: Audio-optimized Film capacitors

First-time or returning customers now have a designated line of capacitors specially optimized for high-end audio applications. Proudly made in the U.S., they're created with high-grade materials using design, testing and manufacturing techniques proprietary to Electrocube. Check out the full list of features for both the [advanced and retro series](#).
