

Bench Mount Light (Bolt Through) 100-220v 5.5w LED DWT™ - 69721

Plug-in driver

In-line driver

Bulb

Machine Head Light

This is the lowest cost bench mount Alex Light solution. Simply drill a hole in the right spot, bolt through the table-top and tighten the supplied nut to secure the light in position. This model has the same 800mm reach (31") as the other bench models. The position of the light is fixed unless a second hole is drilled.

Light Source

Bulb Sku:	A4030 SUNLIKE
