ABOUT OUR CANDLES

Meet Our Farmhouse Family:

Farmhouse Candle Shop is run by the Chad and Jenise Johnson and their family. The Johnsons have always admired using candles to help set the atmosphere of their home and environment. Candles have always been a way of creating warmth, showing hospitality, and symbolizing being a light to the world for the Johnsons. Learn more at:

Why soy wax?

Most candles are made of paraffin wax, which creates highly toxic benzene and toluene when burned (both are known carcinogens). Paraffin is a petroleum waste product and has to be deodorized and chemically bleached before it can be made into wax. We use 100% USA grown soy wax which is renewable and biodegradable (unlike petroleum based paraffin). Soy wax is also a longer burning candle and you can enjoy your candle without worrying about toxins being thrown into the air you breathe!

Why essential oils?

Many candles also contain artificial scents and dyes, which release additional chemicals when burned. Our candles are made with high quality phthalate free essential oils.

FARMHOUSE CANDLE SHOP

A LOCALLY OWNED FAMILY BUSINESS

*All natural soy candles
Scented with essential oils.
Made locally in Bend, Oregon.*
