

PULSAR™ Value, Durability, and Comfort

Pulsar™ Knee Boots feature a combination of durability and comfort at outstanding value.

Formulated with a high performance PVC outsole and a unique PVC blended upper, the result is a boot with good abrasion and slip resistance at value pricing.

- Injection molded seamless construction provides 100% liquidproof protection.
- Flexible, puncture resistant steel midsole meets CSA Z195-14 and reduces risks from sharp objects.
- CSA certified steel toe cap meets or exceeds Z195-14.
- Calf Relief Expansion (CRE)™ expands up to 1.5 inches for more calf comfort.
- Flexible upper material stays supple in cold temperatures to make walking easier.
- Hi-performance outsole with Chevron-Plus® tread pattern provides durability and excellent slip resistance.
- Tread Wear Indicators (TWI) in the forefoot and heel indicate when half the tread life has been worn away.
- Removable, polyurethane, contour insole wicks perspiration and absorbs shock for all day comfort.

Pulsar's performance outsole is abrasion and slip resistant and the blended PVC upper provides excellent durability and value.

Chevron Plus Outsole:
For slip resistance on wet-contaminated and wet-clean surfaces.

Contour Insole:
Cushioned removable polyurethane insole absorbs shock for added comfort.

Ideal Applications: Poultry Husbandry, Food Processing, Farm and Barn, Agricultural, Municipal, and other Light Industrial applications.

Chemical Resistance: Fats, oils, acids, alkalies, and many other chemicals.
