

# DuraScrim™ High Strength, Low Cost

At Tingley, a suit doesn't have to be expensive to offer the protection you need.

## DuraScrim™ Double Coated PVC On Polyester Suit Offers Durability At An Economy Price

Extremely high tear strength is the result of an open weave polyester scrim fabric being sandwiched between two layers of flame resistant PVC coating.

- Therm-O-Rad sealed seam construction for good chemical splash protection.
- Thicker outside coating for better abrasion resistance.
- Lighter interior coating protects fabric from chemical contamination.
- Flame resistant. Self extinguishing with flameout and after-glow less than or equal to 2 seconds after removal of ignition source. Test method ASTM D6413.

**Ideal Applications:** Light Chemical, Construction, Utilities, Agriculture, Food Processing, General Industry, and Hydroblasting.
