

FOOD TRANSITION GUIDE

WHEN TRANSITIONING YOUR DOG TO HEALTH EXTENSION FOOD, CARVE OUT 5 DAYS WHERE YOU WILL BE MIXING THEIR NEW HEALTH EXTENSION FOOD WITH THEIR EXISTING FOOD. HERE IS WHAT THAT WOULD LOOK LIKE:

CHANGING YOUR PET'S FOOD, DAY BY DAY

Day 1

Mix 20% of Health Extension food with 80% of their old formula.

Day 2

Mix 40% of Health Extension food with 60% of their old formula.

Day 3

Mix 60% of Health Extension food with 40% of their old formula.

Day 4

Mix 80% of Health Extension food with 20% of their old formula.

Day 5

Feed your pet 100% of the recommended serving of Health Extension food.

IF YOU FEEL YOUR PET MIGHT BE ESPECIALLY SENSITIVE TO CHANGE, DO EACH STEP FOR 2 DAYS INSTEAD, STRETCHING OUT THE TRANSITION TO 10 FULL DAYS.
