MINERALS	United States

**Many brands may say their vitamins are sourced in the US and that is probably true. This is also the case for Ancestry, but sourced in the US is different from made in the US. The truth is that not all the vitamins are made in the US. So while we buy them in the US (i.e. sourced) they are not all made in the US. We do not allow any of our ingredients to be made in China.*

LAMB & RICE

LAMB MEAL	Australia and New Zealand
WHOLE GROUND BROWN RICE	Arkansas
GROUND OATS	United States
