- Special Forces Green Berets
- SWAT Teams

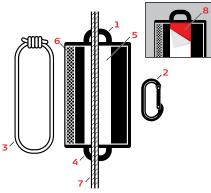

RopeSafe® is a patented, light-weight, easy-to-install load-bearing rope and personal protective system that creates a protective barrier between a load-bearing rope and abrasive surfaces that stays in position, imperative to user safety, and increases lifespan of expensive ropes.

Critical Safety Warning!

Climbing is an inherently dangerous activity. Improper use of this device may result in serious injury or death.

1 Product Overview

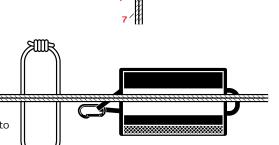

- 1 Load-Bearing Attachment Loop
- 2 Non-locking Carabiner
- 3 Prusik Cord
- 4 Load-bearing Handle
- 5 Duck Fabric
- 6 Hook and Pile Tape
- 7 Static Rope (not included)
- 8 Visual Retirement Indicator -Red Duck Core

Direct Connection Method

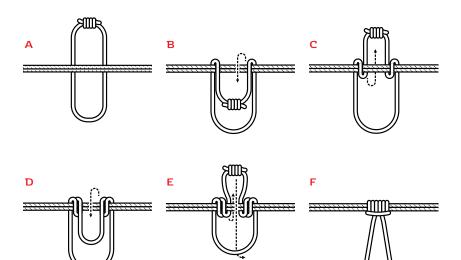

- A Tie prusik knot to loadbearing rope
- **B** Connect non-locking carabiner to attachment loop on RopeSafe
- C Tie prusik knot to loadbearing rope
