

WEEE Declaration

The Waste Electrical and Electronic Equipment (WEEE) Directives (Directive 2002/96/EC and Directive 2012/19/EU) place an obligation on all EU-based manufacturers and importers to ensure that WEEE is collected and treated separately to regular household waste and recycled. As İnofab Sağlık Teknolojileri A.Ş., in accordance with these directives, we expect that end-users of Spirohome-branded products which are labeled with the WEEE symbol ('crossed out wheeled-bin' symbol above), do not mix WEEE with general household waste or municipal, and dispose, collect and recycle their WEEE by returning it to our company or their local authorized distributor.
