Safety switch

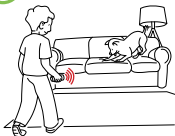

Two effective operating modes

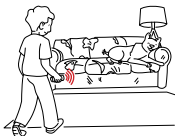

# Guide to Foolproof Ultrasonic Training

## TIP 1

Time is everything -when your dog is about to do something or is doing something inappropriate, it is the accurate time to use the ultrasonic trainer to stop your dog.

**The right timing:** When it happens

**The bad timing:** Afterward

## TIP 2

As long as your dog gets the ultrasonic warning and then refrains from the inappropriate behavior please, stop using the trainer right away and reward your dog immediately (within 3 seconds) with praise, treats, or a toy.

**Correct approach:** Give reward

**Wrong approach:** Continue to use the device

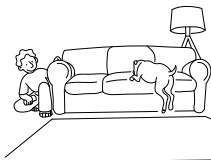

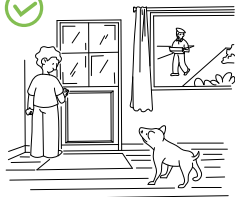

**Wrong approach:** Ignore the dog

### TIP 3

Closely pay attention to your dog's daily behavior and train regularly. Help your dog establish a conditional response to stop barking immediately upon hearing the ultrasonic sound and get a reward afterward.

### TIP 4

If your dog stops the inappropriate behavior briefly after hearing the ultrasonic warning. And then it resumes the behavior, using a verbal command along with the ultrasonic warning to reinforce the training.

## TIP 5

The ultrasonic sound travels directionally. Make sure to point it at the front of the dog when using it so the sound reaches the dog's ears. Note that if there are walls or obstacles in the way the ultrasonic sound will be deflected.

1. Make sure that point it at the front of the dog when using, so...

2. Note that if there are walls or obstacles in the way, the ultrasonic sound emission will be deflected.

3. Any other directions.

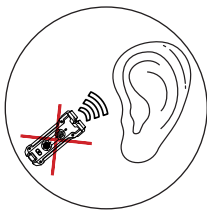

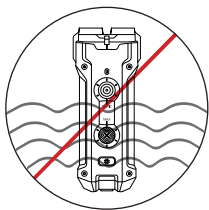

## TIP 6

When your dog does not exhibit any inappropriate behavior, please do not use the ultrasonic trainer, so as not to confuse your dog and compromise previous training.

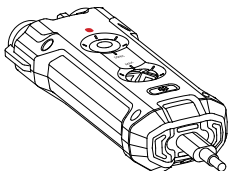

## Important Safety Information

1. Do not directly point to human ears.
2. Do not irradiate the light to human eyes to avoid any hurt.
3. Do not use for purposes except training pets.
4. Do not use this product on dogs under 6 months, or on a sick, old, pregnant, or aggressive dogs.
