# Overview

## Uses

Stop excessive  
barking

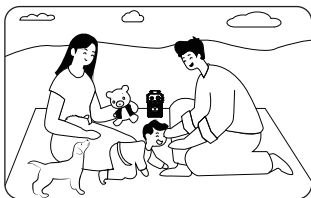

Correct unwanted  
behavior

Assist in daily dog  
training activities

For indoor and  
outdoor use

Stop dogs from barking  
during camping trips

## Key Benefits

Powerful dual ultrasonic speakers

IPX4 waterproof

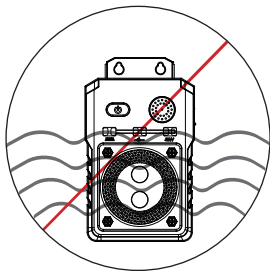

Three effective operation modes

Automatic barking detection

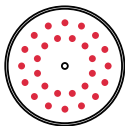

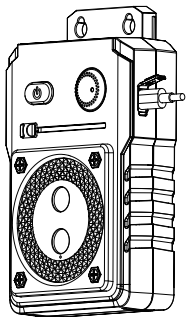

## Important Safety Information

1. Keep a distance from ears to avoid hearing damage.
2. Not suitable for deaf, hard-of-hearing dogs.
3. Be placed beyond the reach of children and never used by children.
4. Do not use this product on dogs under 6 months, or on sick, old, pregnant, or aggressive dogs.
5. The ultrasonic wave will bounce back if there is an object blocking it.
6. Do not disassemble the device. Please contact customer service, if you need to repair.
7. Excessive barking can cause real stress to your relationship with your pet and cause disruption in your neighborhood, and in some cases, this product may be a help.

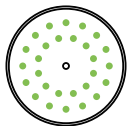

## Device charging

### Type-C charging port

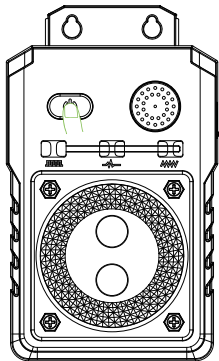

When charging,  
the red light is on.

The green light will be  
on after fully charged.

## Device charging

Start and turn off the device

Short press to turn on the device, the green light is on for 1 second, and the beep sound prompts once.

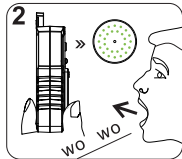

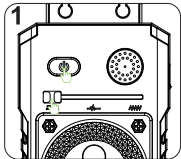

Short press to turn off the device. The red light is on for 1 second, and the beep sound prompts 2 times.

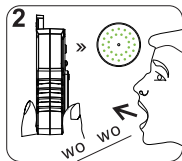

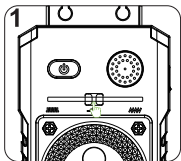

## How to use it to start the ultrasound

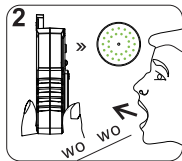

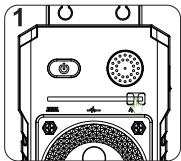

1. When the gear is in a normal ultrasonic state, it faces the microphone. "WO, WO, it will make an ultrasonic, the green light will light up, and it will make a sound quickly.

2. When you slide the button from left to right to enhance the ultrasonic wave, you will start "WO, WO, WO, Ultrasonic Wave", the green light will light up, and the sound will be quickly emitted.

3. When you slide the button from left to right for normal ultrasound, you will face the microphone: "Wow, wow, will emit an ultrasonic wave, you will turn on the green light, and there will be sound.

**Q: What is the range of outdoor ultrasound?**

A: Outdoor barking control detects barking and sends ultrasonic waves up to 50 feet.

**Q: Can I use the Outdoor Bark Stopper indoors?**

A: No, we do not recommend using this product indoors.

**Q: Can dogs become desensitized to ultrasound?**

A: In some cases, dogs can become desensitized. To avoid this, turn on barking to control barking during periods when the dog is barking (i.e. turn it off when you are not around).

**Q: Which types of dogs are suitable?**

A: Suitable for dogs of all sizes and weights. Not recommended for dogs over 8 years old or deaf.

**Q: Do I need to install a battery?**

A: The device is rechargeable and has a built-in rechargeable battery.

## Trouble shooting

**Q: Not responding to my dog.**

**Answer:**

1. Make sure the device is turned on.
2. Please make sure the device is fully charged, then turn on the device, face the microphone and say WO, WO, if the normal ultrasonic wave does not work, try sliding the gear from left to right to test.
3. Check whether there is any blocking object in front of the ultrasonic transmission.
4. The ultrasonic effect will be weakened if the dog's ears are covered.
5. Human beings cannot hear ultrasonic sound.

**Notice:**

1. Use ultrasound to block unwanted dog barking. Follow the training steps below.

**(Note:** Different breeds of dogs respond differently to ultrasound. For best results, there are three gears to find the best gear)

2. Place the outdoor barking control device within the dog's range and switch the device to off frequency, fixed frequency or frequency hopping. Most dogs will quickly understand that the ultrasonic control is disrupting their urge to bark and will relax and stop barking. You should notice the dog bark less within the first two weeks of using outdoor ultrasound.

## Warning statement

**No Illegal or Prohibited Use** This product is for pet use only. This pet training device is not intended to harm or provoke. Use of this product in such a manner is not intended to cause a violation of federal, state or local laws.

This product is designed for use with pets. Training is required. Choose to use this product according to your pet's personality. Recommend this product but if your pet is aggressive, do not use this, otherwise, assume no responsibility for determining suitability in individual cases. If you are unsure whether this product is suitable for your pet, please consult your veterinarian or certified trainer before use.

## Warranty

The original purchaser of this unit has a 1-year warranty. The Warranty starts from the date of purchase. For the first year, warranty repair service includes parts and labor. After the first year, the limited lifetime warranty covers parts only and excludes labor and accessories. Accessories such as batteries are only covered for the first year. All freight incurred, parts costs after the first year, and labor costs associated with out-of-warranty repair work are the customer's responsibility.

### not covered by warranty

We do not provide a warranty for products purchased secondhand or resold. Replacement and refund questions for equipment purchased from an authorized reseller within 30 days must be directed to the reseller. If you purchased the product from an authorized dealer after 30 days from the date of purchase, please send the unit to us for service and repair. We do not cover repair and replacement costs resulting from owner or dog misuse, improper maintenance and/or lost unit. The warranty is void if the device has been altered or damaged by unauthorized persons while attempting repair work.

## maintenance work procedure

If the unit malfunctions, refer to "Troubleshooting" on page 11 in the manual before sending it in for service. A copy of the sales receipt showing the date of purchase may be required before warranty work can begin. Please include a brief description outlining an explanation of the issue, including your name, address, city/state/zip code, daytime phone number, evening phone number, and email address.
