KICHLER

Lighting Solutions for Where You Work, Dine or Stay

For more than 85 years, we've built a reputation as a leader in designing and manufacturing — standing behind all types of lighting fixtures, including fixtures for:

- Multi-family, single family, and senior living spaces
- Hotel rooms, common areas, and hallways
- Ambient and functional restaurant lighting
- Office reception areas, break and conference rooms, and workspaces

Ready for Anything

You expect a lot from the lighting products you choose and we've got you covered from every angle. Our durable LED fixtures deliver both low-cost operation and superior light output. In addition, Kichler's extensive inventory and distribution network offers the dependability you need for every project.

Low Cost Operation

Apartments, Offices and Hospitality structures require high standards for their lighting — and so do we. Our LEDs are designed for 24/7 operation, delivering excellent light distribution for a fraction of energy costs of incandescent or even fluorescent. Every fixture has been tested to ensure it maintains both light performance and a low operating temperature, even in high-use applications. The fixtures come with a 40,000-hour driver/module warranty that equates to 5 years of worry-free operation.
