

Safariland REDLINE™ Demo Program

Don Herbert

Phone: (810) 399-8974

Email: don.herbert@safariland.com

ABOUT THE PROGRAM: Thank you for your interest in our products. The purpose of this application is to enable Safariland to loan your agency/team up to two (2) units for testing and evaluation purposes for thirty (30) days without obligation to purchase.

GENERAL INSTRUCTIONS: Please review the program terms and conditions below, complete the application, print, sign, and return to don.herbert@safariland.com. We are more than happy to talk with you concerning products, capabilities and options and fully support you. This form can be completed from your computer but must include a signature.

Once you have completed the evaluation, the equipment should be returned to:

Safariland, LLC
TCI Evaluation Program
4700 E. Airport Rd.
Ontario, CA 91761

NOTE: Formal evaluations are to support unit, agency and department purchases only. Evaluation only available to customers who agree to conduct evaluation within the United States of America or U.S. territories.

PROGRAM TERMS AND CONDITIONS

1) The duration of the evaluation period should not exceed thirty (30) days without authorization from Safariland. If you need more time, please contact us to receive authorization. 2) Your evaluation will occur within the continental U.S. or Hawaii and product will not be used or transported outside the U.S. at any point during the evaluation period. 3) The individual requesting the product(s) for evaluation is considered an authorized representative of the requesting agency in which he/she is affiliated. He/she is responsible for the care and timely return of the product/s loaned for evaluation, at their expense, using a professional shipping carrier. 4) The evaluated communication product(s) must be returned in like-new condition. 5) The requesting agency assumes responsibility for the value of the evaluated equipment in the event of loss, theft or damage 6) The evaluated equipment shall not be altered, damaged, disassembled, modified or otherwise adapted in any way without written authorization from Safariland. 7) The requesting agency may be billed for the evaluated hardware if there be a violation of these terms and conditions. A usage fee may be charged if the duration of the evaluation extends beyond that authorized by Safariland. 8) The evaluating agency agrees to submit written feedback after the headset evaluation has been completed using our evaluation feedback form or an agency letter. Please include a brief description of your testing procedure, findings and recommendations to that we can better serve our customers in the future. 9) It is our intention to support your request for evaluation to the best of our ability; however, your compliance with the terms and conditions of this program is required. 10) The evaluating agency should use a reliable and traceable shipping method of their choosing when returning the equipment to Safariland and is responsible for its safe return to our facility in Ontario, California. 11) Please contact us if you have any special needs, timeline or requirements.

_Which of our products are you interested in evaluating? (product list / description on next page)

REDLINE FSM Only	Liberator IV REDLINE Single-Comm System (Headset + FSM)	Liberator V REDLINE Dual-Comm System (Headset + Dual PTT)
	Include Fire ICS Cable? Y N	Include Tactical Wireless Modules? Y N

REDLINE Communications Gear Available for Evaluation

LIBERATOR® IV REDLINE SINGLE COMMUNICATIONS HEADSET SYSTEM

- First of its kind multi-mode headset with Passive Electronic Noise Compression and Active Noise Cancellation technology that protects hearing, while allowing clear communication in the noisiest environments
- Extreme temperature durability and high temperature sustained operation
- Ambient sound amplification for 360 degree situational awareness face-to-face communication
- Noise canceling boom microphone for clear voice transmission, even when worn with SCBA
- Low profile behind-the-head suspension, designed to fit under fire and rescue helmets, without interfering with the helmet ratchet adjustment.
- Does not interfere with SCBA face mask seal
- Available for all common public safety portable radios
- Particulate dust and water spray resistant, submersible up to three (3) feet
- Third party tested - explosive atmosphere certified, MILSTD certified and certified at 26 dB NRR
- Easily cleaned / decontaminated
- System includes Safariland Fire Speaker Microphone (FSM)

SAFARILAND® REDLINE FIRE SPEAKER MICROPHONE (FSM) / PUSH-TO-TALK

- Use as a stand-alone RSM, or integrate with a TCI/Safariland Liberator IV REDLINE Headset
- Extreme temperature durability and high temperature sustained operation
- 3.5mm listen only connector (monaural), compatible with any 3.5mm earbud
- Available for all common public safety portable radios
- Dual offset noise canceling microphones, positioned so they are never covered by gloved hands, for clear transmission at any direction in even the noisiest environment
- Glow-in-the-Dark/Reflective trim, for reference in lowlight/dark environments
- Large Emergency Activation Button (EAB) glows orange for quick location in low-light/dark conditions, and is easily activated with a gloved finger, while protected from accidental activations (available for most radios)
- Particulate dust and water spray resistant, submersible up to three (3) feet
- Ergonomic design and large 2" ambidextrous tactile Push-to-Talk, allow ease of use with gloved hands and provides audible 'snap' feedback when engaged
- Multi-attachment retention clip with D-ring rotates 360 degrees with eight (8) detents, PALS, retention lanyard and is button-back clip compatible (included)
- Easily cleaned/decontaminated

LIBERATOR® V REDLINE DUAL COMMUNICATIONS HEADSET

- First of its kind multi-mode headset with Passive Electronic Noise Compression and Active Noise Cancellation technology that protects hearing, while allowing clear communication in the noisiest environments
- Ambient sound amplification for 360-degree situational awareness / face-to-face communication
- Noise canceling boom microphone for clear voice transmission, even when worn with SCBA
- Does not interfere with SCBA face mask seal
- Bifurcated audio allows simultaneous radio message reception in corresponding Earcup; right radio in right ear, left radio in left ear
- Multi-functional dual PTT allows for message transmission to one or both radios at the same time
- Low profile behind-the-head suspension, designed to fit under fire and rescue helmets, without interfering with the helmet ratchet adjustment.
- Particulate dust and water spray resistant, submersible up to three (3) feet
- Third party tested - explosive atmosphere certified, MILSTD certified and certified at 26 dB NRR
- Includes R.4 U-PTT Assembly, available for all common public safety portable radios
- Tactical Wireless Module compatible
- Easily cleaned / decontaminated

SAFARILAND® REDLINE FIRE ICS CABLE

- Replaces existing ICS headset and cable
- Connect to existing wired ICS port for use with Liberator IV REDLINE headset
- Fourty-four inch (44") straight cable with U-94 PTT
- Compatible with all manufacturers of in-cab wired intercom systems

LIBERATOR® TACTICAL WIRELESS MODULE

- Uses common wireless technology found in all tablets and cell phones
- Music and cell phone continuous operational time: 8 hrs
- Standby time: 10 days
- Charge time: 1 hr (lithium ion battery)
- Range: 33ft (10 meters)
- Compatible wireless profile: A2DP, AVRCP, HSP, HFP
- Multi-point pairing
- IP67 rated: dust proof and water submersible for up to 30 minutes
- Programmed with voice prompts for calling and power status
- Utilizes standard COTS 3-button wireless interface that includes accepting calls, dropping calls, and cycling music playlists
- Includes Micro-USB charging cable
- Impedance agnostic
- Available for the Liberator® III, Liberator® V and fire headsets with R.4 U-PTT
