

HONEYWELL CONSTRUCTION SAFETY TRAINING SOLUTIONS

Training workers so they are protected when
and where they need it most

Honeywell

CONSTRUCTION TRAINING SOLUTIONS

Discover what is best for your employees, company or site needs

Honeywell is driven to meet your exact construction safety training needs to ensure that all workers go home safely, and your company remains compliant.

ON-SITE TRAINING

Customized training sessions can be scheduled at your facility, or at one of ours. Honeywell Training provides all equipment and materials necessary to conduct the training. Our experienced instructors are trained subject matter experts educated on all regulatory compliances and ready to go the extra mile.

VIRTUAL TRAINING

Virtual training courses take place with a live Honeywell instructor through an online platform via video conference. Save on travel and train in the convenience of your home or in a safe conference space.

OPEN ENROLLMENT TRAINING

Open to everyone, our Open Enrollment Training courses are offered throughout the US and Canada. There are a variety of dates and locations to choose from to best meet your training needs. From multi-day training courses to 1-day refresher courses, we have your safety training requirements covered. All training courses are led by our team of experienced and knowledgeable instructors.

ONLINE TRAINING

Online Training courses are offered 24-7 and allow you to train at your own pace. A direct link is sent separately after registration. Courses are taken in our Learning Management System (LMS), where your profile is automatically generated.

**You're not just protecting a worker.
You're protecting a life.**
