

523900 Kawasaki Z900RS Radiator Guard Fitting Instructions

Kit Includes:

1X	C523900	Radiator Guard
4X	CFOA0001	Foam Strip 50mm

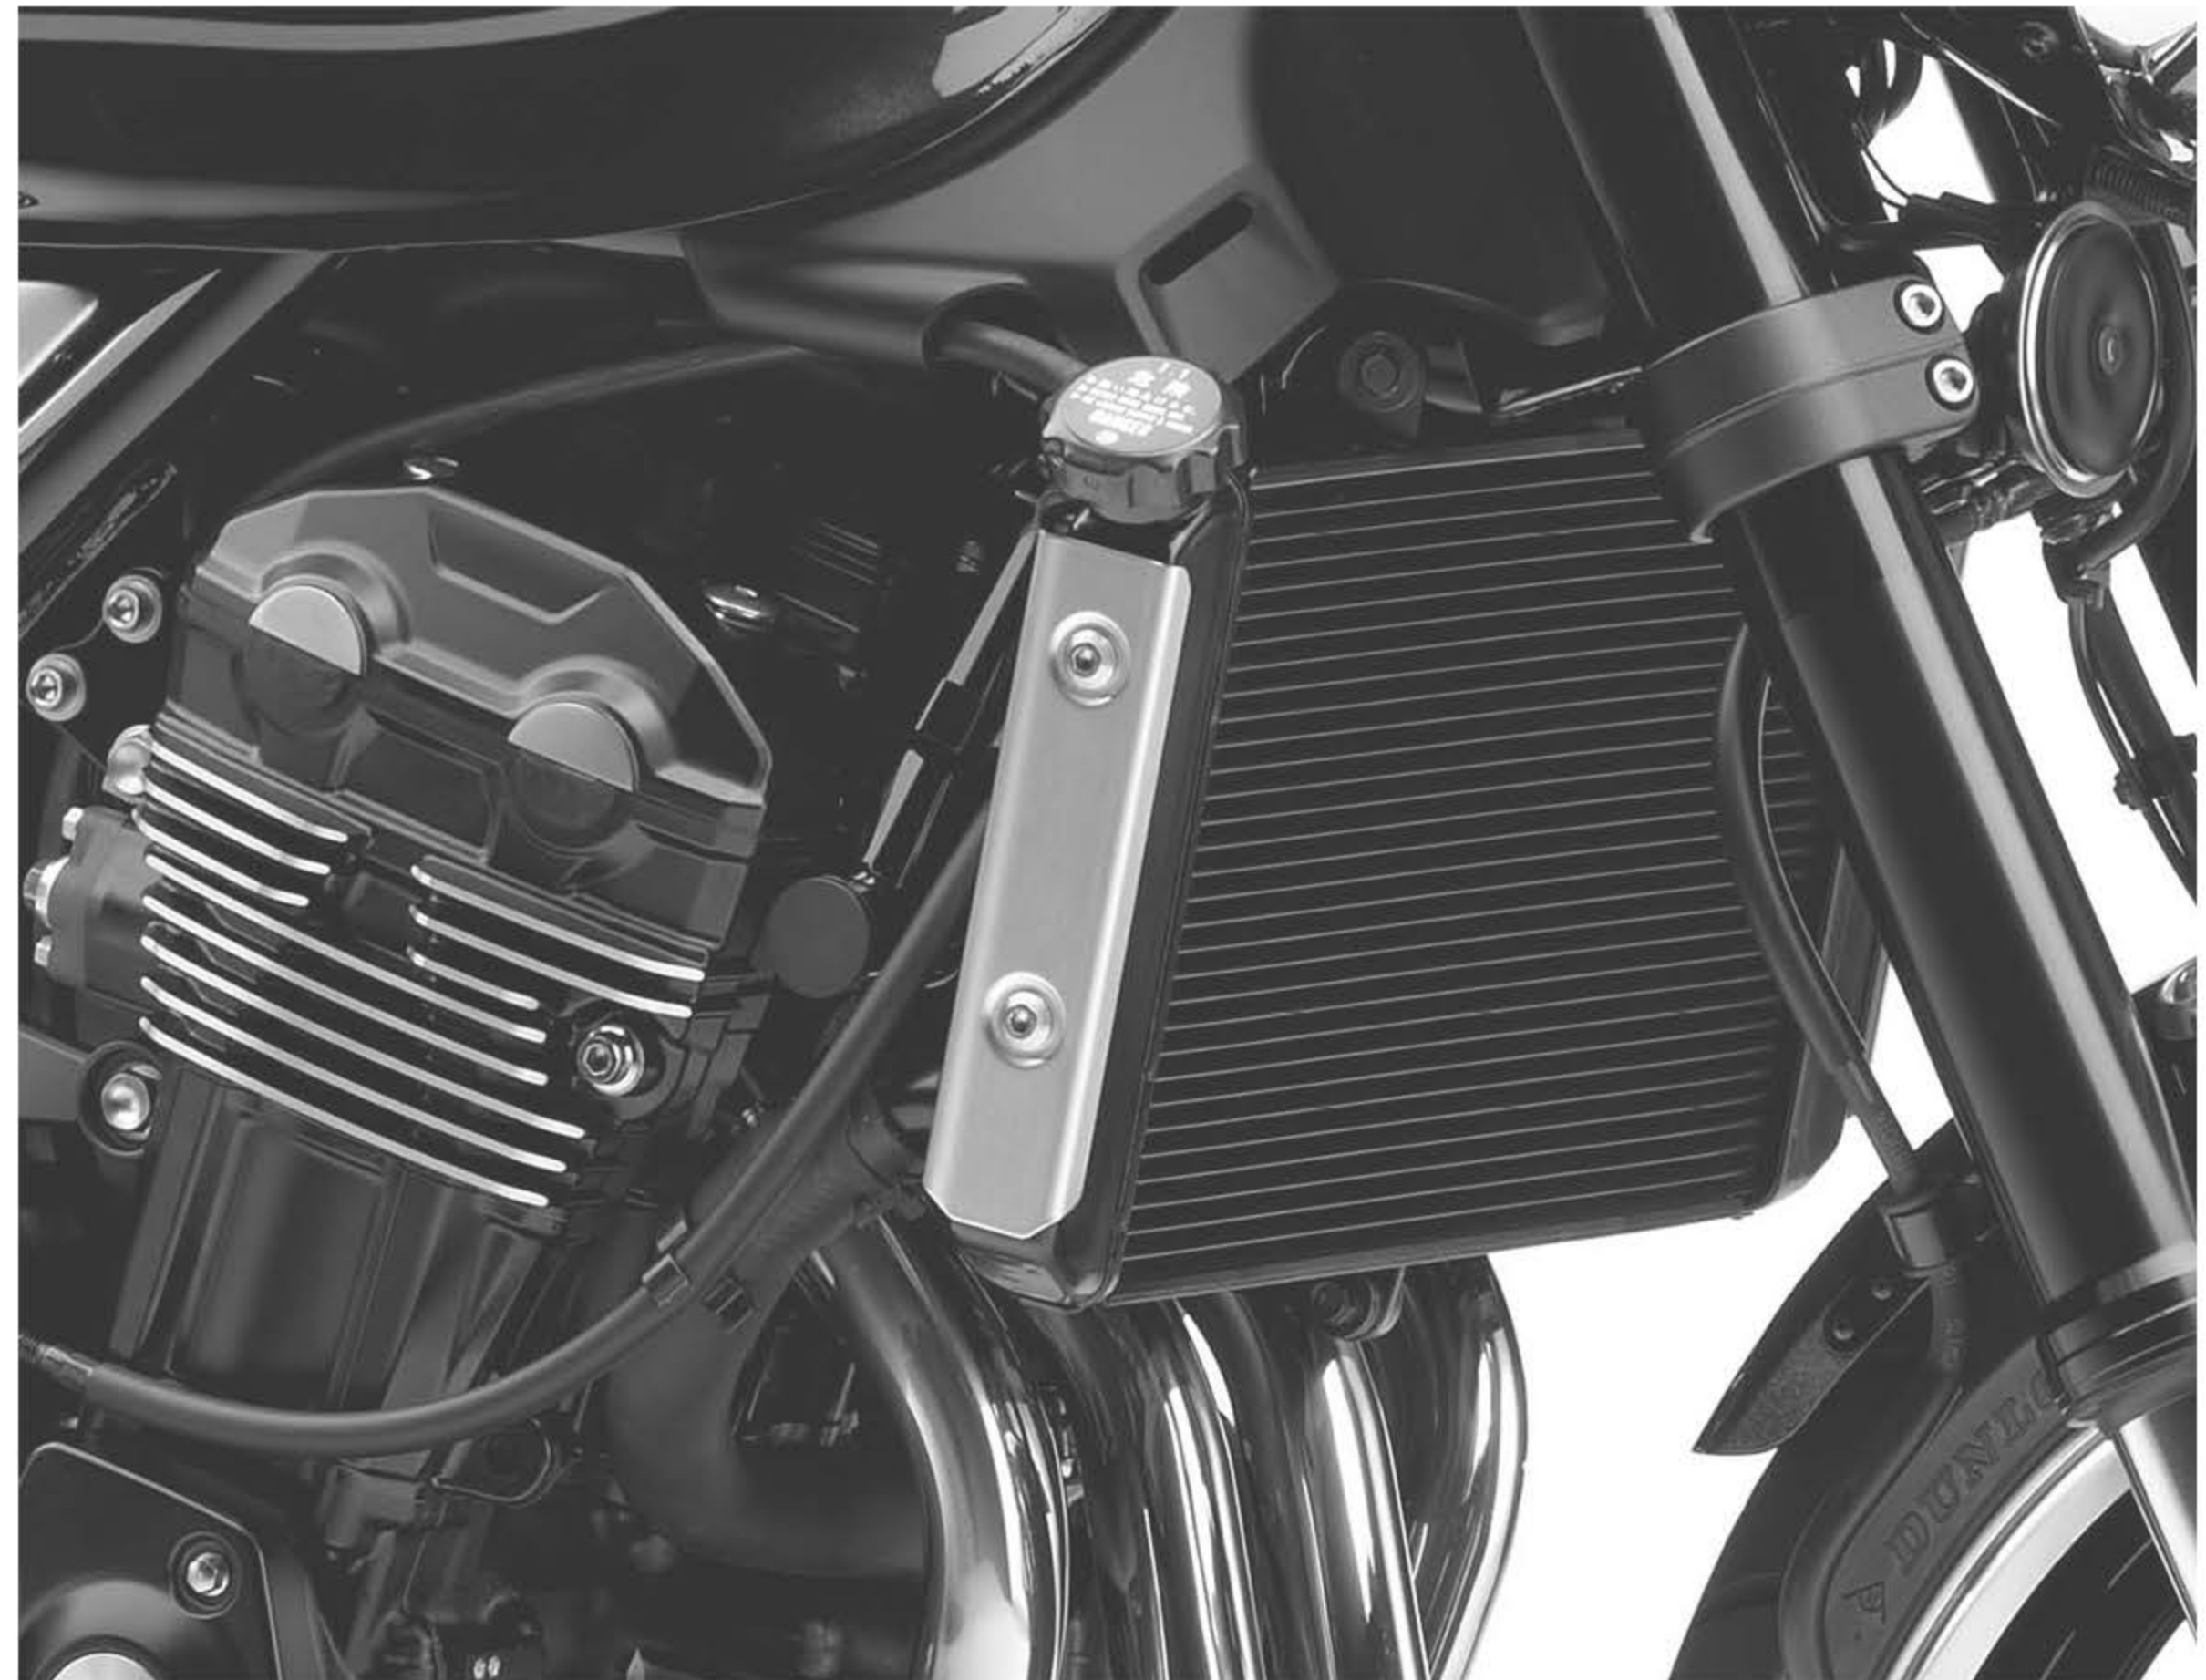

- Remove the radiator cheeks (shown in image below).
- The foam strips supplied can be used on the inside of the radiator guard to create a gasket between the radiator and the radiator guard.
- Position the radiator guard on the bike and use the OEM bolts removed to fit in place (the radiator cheeks removed in the first bullet point fit on top of the radiator guard).

Check fixings periodically.
