

DETOX MIRACLE HEALING SALVE

APRIL 2019

Detox Miracle Healing Salve is a unique American Indian herbal compound that has reached through time, over several hundred years, to meet the needs of an ailing civilization today. It is like a time capsule sent to us from a distant past when knowledge was more of the spirit than of the intellect. There is a great sincerity and respect for this healing formula at every stage of its preparation.

- Those, who handle the Compound including myself, feel blessed to be part of an age-old rite that is indeed very special
- Still produced in the Native American manner, synergistically blended with Spiritual intent.
- Metal should never be allowed to touch the finished formula as it would de-stabilize the electrolysis process provided by the components in the Compound.

I would like to enumerate some of the ways this healing formula has been used, related to us from the experiences of thousands of modern-day people for over 125 years. Please read the following very carefully as it contains answers to many of the most frequently asked questions.

SALVE PROTOCOL

Tradition has shown that the best results have been achieved by taking 800 milligrams of the compound for six weeks, either once, twice, three or four times a day at different stages of illness and body weight. This can be measured by filling the large side of a vegetable 00 size capsule as one dose. Always follow each dose by drinking 8 to 12 ounces of pure spring water. Fill and use capsules only for one day at a time, as the compound can melt capsules if left for too long. If capsules cannot be found, measure 1/8th of a level plastic teaspoon of the compound, roll this paste into a ball and swallow it.

1. **One dose per day:** The best time is one hour after dinner followed by drinking 8 to 12 ounces of pure spring water.
2. **Two doses per day:** The best dosage times are one hour after breakfast and one hour after dinner followed by drinking 8 to 12 ounces of pure spring water each time or best water available.
3. **Three doses per day:** The best dosage times are one hour after breakfast, one hour after lunch and one hour after dinner, each time followed by drinking 8 to 12 ounces of pure spring water.
4. **Four doses per day:** The best dosage times are one hour after breakfast, one hour after lunch, one hour after dinner and the last thing at night before bed, each time followed by drinking 8 to 12 ounces of pure spring water or best water available.

Please note: If you eat your first meal of the day late, or you skip a meal, or you are fasting, doses are taken as per normal, i.e. it is not necessary to eat prior to taking a dose.

During one hour after ingesting the Compound, herbal tea, such as mint or ginger can be taken for queasiness. Mint cools the body and ginger warms the body, so choose accordingly or combine them if you feel neither hot nor cold but neutral instead. Aloe Vera juice, which is cooling, may be used for the same purpose.

The Compound is taken daily for two weeks on, then two days off, two weeks on again, then two days off, and again, two weeks on. This is a six week cycle of cleansing and detox with this ancient formula. A person may continue for another cycle of six weeks or more, if needed.

With a good internal cleanse, a strong friendly non-dairy probiotic, such as *ORA ORGANIC*, can be taken, before meals, to revitalize the intestinal tract for a three-month period after finishing the *Detox Miracle Healing Salve*.

ENEMA OR DOUCHE

A quarter-level teaspoon of the compound is thoroughly mixed into two ounces of pure spring water and this would be one dose for either enema or douche. For a person 125 pounds or less in weight, the mixture is 1/8 of a level teaspoon of compound with 2 ounces of pure water.

- The enema is applied every other night and the compound / water mixture is inserted, using an enema bulb, at bedtime and left in overnight
- The douche is applied every other night at bedtime and held internally for 20 minutes by laying on a flat surface with a pillow under the hips while tilting the hips towards the ceiling. The liquid is then released without washing out and then retiring to bed.

TOPICAL

The formula is very versatile and can be applied topically usually after 7 days of internal use for most of the body and after 14 days for the face and breast of a woman. The compound should never be applied directly to the gums of the mouth or the interior of a woman's vagina. As with any degenerative disease, 90 percent of the healing work and detox takes place inside the body; the other 10 percent is the topical application and the drawing out of toxins and lymphatic waste.

- With the topical application, the skin is moistened with pure water and the Compound is smeared on just covering the wound but in total no larger than the size of a dime and no thicker than a dime, to be then left on the skin until the Compound falls off, and then reapplied, if needed.
- The compound should be covered and kept very dry with a loose, non-toxic, bandage; a light smear of compound can be added every five days to refresh the drawing process.
- If the wound has opened and a pus-like substance is being released, then the compound is left on the skin until all the pus-like substance has been released and the compound falls off the skin of its accord. When the releasing process is complete, Nano Silver or Colloidal Silver can be sprayed over the open wound. Do not cover with Compound any opening that is releasing pus or toxins.

OTHER USES

The compound may be applied lightly on the bristle tips of a toothbrush for a healthy teeth and gums cleansing.

For cleaning the sinus cavities, mix 1/32nd of a level teaspoon of the Compound with 2 ounces of pure water, place mixture in a neti pot, and inhale the mixture into the sinus cavities via the nostrils at least every other day for 10 days.

It is often used internally as a preventative and detoxification, once or twice a year, for the blood, lymphatic system, liver, intestinal track and colon. As with a good internal cleanse, a strong friendly bacteria, such as *ORA ORGANICS*, can be taken before meals for a three-month period to revitalize the intestines.

It has also been used successfully internally for Cancer, Tumors, Cervical Cancer, Morgellons, Leukemia, Chronic Fatigue Syndrome, Allergies, Viral diseases, Yeast and Fungal Infections, Worms, Parasites, Lupus, Moles, Vaginitis and Skin cancer.

It is common to feel a slight queasiness in the stomach area for an hour or so after ingestion of the compound as the body becomes more alkaline and as certain parasites and bad bacteria die off. Stools usually take on a darker coloration as toxins are released from the body. One may even notice white mucus in the stools, a sign of fungus (candida) elimination.
